UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2021

OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from__________ to __________

Commission File Number: 001-34680

Primerica, Inc.
(Exact name of registrant as specified in its charter)

Delaware	**27-1204330**
(State or other jurisdiction of incorporation or organization)	**(I.R.S. Employer Identification No.)**
1 Primerica Parkway Duluth, Georgia	**30099**
(Address of principal executive offices)	**(ZIP Code)**

(770) 381-1000
(Registrant's telephone number, including area code)

Not applicable.
(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock	PRI	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☒Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically, if any, every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). ☒ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☒	Accelerated filer	☐
Non-accelerated filer	☐	Smaller reporting company	☐
Emerging growth company	☐		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). ☐ Yes ☒ No

As of July 31, 2021, the registrant had 39,469,869 shares of common stock, $0.01 par value per share, outstanding.

(1) Description of Business, Basis of Presentation, and Summary of Significant Accounting Policies

Description of Business. Primerica, Inc. (the "Parent Company"), together with its subsidiaries (collectively, "we", "us" or the "Company"), is a leading provider of financial products to middle-income households in the United States and Canada through a network of independent contractor sales representatives ("sales representatives" or "sales force"). We assist our clients in meeting their needs for term life insurance, which we underwrite, and mutual funds, annuities, managed investments and other financial products, which we distribute primarily on behalf of third parties. Our primary subsidiaries include the following entities: Primerica Financial Services, LLC ("PFS"), a general agency and marketing company; Primerica Life Insurance Company ("Primerica Life"), our principal life insurance company; Primerica Financial Services (Canada) Ltd., a holding company for our Canadian operations, which includes Primerica Life Insurance Company of Canada ("Primerica Life Canada") and PFSL Investments Canada Ltd. ("PFSL Investments Canada"); and PFS Investments Inc. ("PFS Investments"), an investment products company and broker-dealer. Primerica Life, domiciled in Tennessee, owns National Benefit Life Insurance Company ("NBLIC"), a New York insurance company. Peach Re, Inc. ("Peach Re") and Vidalia Re, Inc. ("Vidalia Re") are special purpose financial captive insurance companies and wholly owned subsidiaries of Primerica Life. Peach Re and Vidalia Re have each entered into separate coinsurance agreements with Primerica Life whereby Primerica Life has ceded certain level-premium term life insurance policies to Peach Re and Vidalia Re (respectively, the "Peach Re Coinsurance Agreement" and the "Vidalia Re Coinsurance Agreement").

Basis of Presentation. We prepare our financial statements in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"). These principles are established primarily by the Financial Accounting Standards Board ("FASB").

The accompanying unaudited condensed consolidated financial statements contain all adjustments, generally consisting of normal recurring accruals, which are necessary to fairly present the balance sheets as of June 30, 2021 and December 31, 2020, the statements of income, comprehensive income, and stockholders' equity for the three and six months ended June 30, 2021 and 2020, and cash flows for the six months ended June 30, 2021 and 2020. Results of operations for interim periods are not necessarily indicative of results for the entire year or of the results to be expected in future periods.

These unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and note disclosures normally included in annual financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are sufficient to make the information not misleading. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto that are included in our Annual Report on Form 10-K for the year ended December 31, 2020 ("2020 Annual Report").

Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect financial statement balances, revenues and expenses and cash flows, as well as the disclosure of contingent assets and liabilities. Management considers available facts and knowledge of existing circumstances when establishing the estimates included in our financial statements. The most significant items that involve a greater degree of accounting estimates and actuarial determinations subject to change in the future are the valuation of investments, deferred policy acquisition costs ("DAC"), future policy benefit reserves and corresponding amounts recoverable from reinsurers, and income taxes. Estimates for these and other items are subject to change and are reassessed by management in accordance with U.S. GAAP. Actual results could differ from those estimates.

Consolidation. The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and those entities required to be consolidated under U.S. GAAP. All material intercompany profits, transactions, and balances among the consolidated entities have been eliminated.

Reclassifications. Certain reclassifications have been made to prior-period amounts to conform to current-period reporting classifications. These reclassifications had no impact on net income or total stockholders' equity.

Significant Accounting Policies. All significant accounting policies remain unchanged from the 2020 Annual Report unless otherwise described.

New Accounting Principles. In December 2019, the FASB issued Accounting Standards Update No. 2019-12,*Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes* ("ASU 2019-12"), which is intended to simplify various aspects related to accounting for income taxes. ASU 2019-12 removes certain exceptions to the general principles in Topic 740 and also clarifies and amends existing guidance to improve consistent application. We adopted the amendments in Topic 740 as of the January 1, 2021, but concluded there was no impact on our unaudited condensed consolidated financial statements.

Future Application of Accounting Standards. In August 2018, the FASB issued Accounting Standards Update No. 2018-12,*Financial Services—Insurance (Topic 944) — Targeted Improvements to the Accounting for Long-Duration Contracts* ("ASU 2018-12"). The amendments in this update change accounting guidance for insurance companies that issue long-duration contracts, including term life insurance. ASU 2018-12 requires companies that issue long-duration insurance contracts to update assumptions used in measuring future policy benefits, including mortality, disability, and persistency, at least annually instead of locking those assumptions at contract inception and reflecting differences in assumptions and actual performance as the experience occurs. ASU 2018-12 also includes changes to how insurance companies that issue long-duration contracts amortize DAC and determine and update the discount rate assumptions used in measuring future policy benefits reserves while increasing the level of financial statement disclosures required. The guidance in ASU 2018-12 will be applied to the earliest period presented in the unaudited condensed consolidated financial statements beginning on the effective date, which is January 1, 2023. The adoption of ASU 2018-12 will have an impact on our consolidated financial statements and related disclosures and will require changes to certain of our processes, systems, and controls. We are currently working on processes that will allow us to obtain the requisite data, modify our valuation system, and develop key assumptions that will be necessary to evaluate and implement this standard. As such, we are unable to determine the magnitude of the impact ASU 2018-12 will have on our consolidated financial statements at this time.

Recently-issued accounting guidance not discussed above is not applicable, is immaterial to our unaudited condensed consolidated financial statements, or did not or is not expected to have a material impact on our business.

(2) Segment and Geographical Information

Segments. We have two primary operating segments — Term Life Insurance and Investment and Savings Products. We also have a Corporate and Other Distributed Products segment.

Notable information included in profit or loss by segment was as follows:

	Three months ended June 30,		Six months ended June 30,

Total fixed-maturity securities and short-term investments	$ 2,431,584	$ 129,081	$ (5,755)	$ 2,554,910

	December 31, 2020			
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value
	(In thousands)			
Securities available-for-sale, carried at fair value:				
Fixed-maturity securities:				
U.S. government and agencies	$ 9,747	$ 400	$ (3)	$ 10,144
Foreign government	169,967	13,324	(39)	183,252
States and political subdivisions	161,058	9,632	(1)	170,689
Corporates	1,506,549	124,164	(2,545)	1,628,168
Residential mortgage-backed securities	261,376	11,419	(54)	272,741
Commercial mortgage-backed securities	107,020	5,901	(56)	112,865
Other asset-backed securities	85,521	1,816	(585)	86,752
Total fixed-maturity securities	$ 2,301,238	$ 166,656	$ (3,283)	$ 2,464,611

All of our available-for-sale mortgage- and asset-backed securities represent variable interests in variable interest entities ("VIEs"). We are not the primary beneficiary of these VIEs because we do not have the power to direct the activities that most significantly impact the entities' economic performance. The maximum exposure to loss as a result of our involvement in these VIEs equals the carrying value of the securities.

The scheduled maturity distribution of the available-for-sale fixed-maturity portfolio as of June 30, 2021 was as follows:

	Amortized cost	Fair value
	(In thousands)	
Due in one year or less	$ 193,366	$ 196,393
Due after one year through five years	813,251	868,694
Due after five years through 10 years	632,788	666,528
Due after 10 years	253,988	270,026
	1,893,393	2,001,641
Mortgage- and asset-backed securities	497,864	512,944
Total AFS fixed-maturity securities	$ 2,391,257	$ 2,514,585

Expected maturities may differ from scheduled contractual maturities because issuers of securities may have the right to call or prepay obligations with or without call or prepayment penalties.

Trading Securities. The cost and fair value of the securities classified as trading securities were as follows:

	June 30, 2021		December 31, 2020	
	Cost	Fair value	Cost	Fair value
	(In thousands)			
Fixed-maturity securities	$ 33,788	$ 33,498	$ 16,359	$ 16,300

Held-to-maturity Security. Concurrent with the execution of the Vidalia Re Coinsurance Agreement, Vidalia Re entered into a Surplus Note Purchase Agreement (the "Surplus Note Purchase Agreement") with Hannover Life Reassurance Company of America and certain of its affiliates (collectively, "Hannover Re") and a newly formed limited liability company (the "LLC") owned by a third- party service provider. Under the Surplus Note Purchase Agreement, Vidalia Re issued a surplus note (the "Surplus Note") to the LLC in exchange for a credit enhanced note from the LLC with an equal principal amount (the "LLC Note"). The principal amount of both the LLC Note and the Surplus Note will fluctuate over time to coincide with the amount of reserves contractually supported under the Vidalia Re Coinsurance Agreement. Both the LLC Note and the Surplus Note mature on December 31, 2030 and bear interest at an annual interest rate of4.50%. The LLC Note is guaranteed by Hannover Re through a credit enhancement feature in exchange for a fee, which is reflected in interest expense on our unaudited condensed consolidated statements of income.

The LLC is a VIE as its owner does not have an equity investment at risk that is sufficient to permit the LLC to finance its activities without Vidalia Re or Hannover Re. The Parent Company, Primerica Life, and Vidalia Re share the power to direct the activities of the LLC with Hannover Re, but do not have the obligation to absorb losses or the right to receive any residual returns related to the LLC's primary risks or sources of variability. Through the credit enhancement feature, Hannover Re is the ultimate risk taker in this transaction and bears the obligation to absorb the LLC's losses in the event of a Surplus Note default in exchange for the fee. Accordingly, the Company is not the primary beneficiary of the LLC and does not consolidate the LLC within its unaudited condensed consolidated financial statements.

The LLC Note is classified as a fixed-maturity held-to-maturity security in the Company's invested asset portfolio as we have the positive intent and ability to hold the security until maturity. As of June 30, 2021, the LLC Note had an estimated unrealized holding gain of $204.1 million based on its amortized cost and estimated fair value. The estimated fair value of the LLC Note is expected to be at least equal to the estimated fair value of the offsetting Surplus Note. See Note 12 (Debt) for more information on the Surplus Note.

As of June 30, 2021, no credit losses have been recognized on the LLC Note held-to-maturity security.

Investments on Deposit with Governmental Authorities. As required by law, we have investments on deposit with governmental authorities and banks for the protection of policyholders. The fair values of investments on deposit were $7.6 million and $7.7 million as of June 30, 2021 and December 31, 2020, respectively.

Securities Lending Transactions. We participate in securities lending transactions with broker-dealers and other financial institutions to increase investment income with minimal risk. We require minimum collateral on securities loaned equal to 102% of the fair value of the loaned securities. We accept collateral in the form of securities, which we are not able to sell or encumber, and to the extent the collateral declines in value below 100%, we require additional collateral from the borrower. Any securities collateral received is not reflected on our unaudited condensed consolidated balance sheets. We also accept collateral in the form of cash, all of which we reinvest. For loans involving unrestricted cash collateral, the collateral is reported as an asset with a corresponding liability representing our obligation to return the collateral. We continue to carry the loaned securities as invested assets on our unaudited condensed consolidated balance sheets during the terms of the loans, and we do not report them as sales. Cash collateral received and reinvested was $80.6 million and $72.2 million as of June 30, 2021 and December 31, 2020, respectively.

Investment Income. The components of net investment income were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands)			
Fixed-maturity securities (available-for-sale)	$ 20,155	$ 20,213	$ 40,175	$ 40,997

Equity securities	411	461	803	912
Policy loans and other invested assets	98	541	329	730
Cash and cash equivalents	156	143	275	986
Total return on deposit asset underlying 10% coinsurance agreement(1)	1,068	3,653	1,643	(896)
Gross investment income	37,383	39,085	73,867	70,275
Investment expenses	(1,353)	(2,301)	(2,637)	(4,599)
Investment income net of investment expenses	36,030	36,784	71,230	65,676
Interest expense on surplus note	(15,495)	(14,074)	(30,642)	(27,546)
Net investment income	$ 20,535	$ 22,710	$ 40,588	$ 38,130

(1) For the three and six months ended June 30, 2021, included $(0.2) million and $(1.0) million, respectively, of net losses recognized for the change in fair value of the deposit asset underlying the 10% coinsurance agreement. For the three and six months ended June 30, 2020, included $2.3 million and $(4.1) million, respectively, of net gains (losses) recognized for the change in fair value of the deposit asset underlying the 10% coinsurance agreement.

The components of net realized investment gains (losses) recognized in net income as well as details on gross realized investment gains and losses were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands)			
Net realized investment gains (losses):				
Gross gains from sales of available-for-sale securities	$ 3,213	$ 827	$ 3,978	$ 1,183
Gross losses from sales of available-for-sale securities	(1,804)	(51)	(1,947)	(116)
Credit losses on available-for-sale securities	(704)	(545)	(858)	(4,246)
Net gains (losses) recognized in net income during the period on equity securities	112	1,547	1,536	(5,125)
Gains (losses) from bifurcated options	(33)	(36)	(50)	16
Gains (losses) on trading securities	(83)	-	(192)	-
Net realized investment gains (losses)	$ 701	$ 1,742	$ 2,467	$ (8,288)

The proceeds from sales or other redemptions of available-for-sale securities were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands)			
Proceeds from sales or other redemptions	$ 208,785	$ 133,913	$ 314,171	$ 275,830

The components of net gains (losses) recognized in net income on equity securities still held as of period-end were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands)			
Net gains (losses) recognized in net income during the period on equity securities	$ 112	$ 1,547	$ 1,536	$ (5,125)
Less: Net gains (losses) recognized on equity securities sold	-	(191)	-	(191)
Net gains (losses) recognized in net income on equity securities still held as of period-end	$ 112	$ 1,738	$ 1,536	$ (4,934)

Accrued Interest. Accrued interest is recorded in accordance with the original interest schedule of the underlying security. In the event of default, the Company's policy is to no longer accrue interest on these securities and any remaining accrued interest will be written off. As a result, the Company has made the policy election to not record an allowance for credit losses on accrued interest.

Credit Losses for Available-for-sale Securities. The following table summarize all AFS securities in an unrealized loss position for which an allowance for credit losses has not been recorded as of June 30, 2021, aggregated by major security type and length of time such securities have continuously been in an unrealized loss position:

	June 30, 2021			
	Less than 12 months		12 months or longer	
	Fair value	Unrealized losses	Fair value	Unrealized losses
	(Dollars in thousands)			
Fixed-maturity securities:

Commercial mortgage-backed securities	10,419	(65)	129	(1)
Other asset-backed securities	12,569	(44)	4,512	(96)
Total fixed-maturity securities	266,702	(5,437)	19,321	(316)
Short-term investments:				
U.S. government and agencies	40,325	(2)	-	-
Total short-term investments	40,325	(2)	-	-
Total fixed-maturity securities and short-term investments	$ 307,027	$ (5,439)	$ 19,321	$ (316)

	December 31, 2020			
	Less than 12 months		12 months or longer	
	Fair value	Unrealized losses	Fair value	Unrealized losses
	(Dollars in thousands)			
Fixed-maturity securities:				
U.S. government and agencies	$ 1,619	$ (3)	$ -	$ -
Foreign government	4,034	(39)	-	-
States and political subdivisions	449	(1)	-	-
Corporates	68,057	(1,628)	11,964	(917)
Residential mortgage-backed securities	1,672	(35)	862	(19)
Commercial mortgage-backed securities	10,200	(50)	2,168	(6)
Other asset-backed securities	11,988	(536)	3,150	(49)
Total fixed-maturity securities	$ 98,019	$ (2,292)	$ 18,144	$ (991)

The amortized cost of available-for-sale fixed-maturity securities with a cost basis in excess of their fair values were $332.1 million and $119.4 million as of June 30, 2021 and December 31, 2020, respectively.

As of June 30, 2021, we did not recognize credit losses in the unaudited condensed consolidated statements of income on available-for-sale securities with unrealized losses that were due to interest rate sensitivity and changes in credit spreads. We believe that fluctuations caused by movement in interest rates and credit spreads generally have little bearing on the recoverability of our investments. For those that remain in an unrealized loss position we have the ability to hold these investments until maturity or a market price recovery, and we have no present intention to dispose them.

For the three and six months ended June 30, 2021, we recorded a total of $0.7 million and $0.9 million, respectively, and for the three and six months ended June 30, 2020, we recorded a total of $0.5 million and $4.2 million, respectively, for credit losses in the unaudited condensed consolidated statements of income on available-for-sale securities. Of these credit losses, there were no adjustments made to the amortized cost basis for the three and six months ended June 30, 2021, and approximately $0.1 million and $3.8 million were recorded as an adjustment to amortized costs due to our intent to sell securities of specific issuers that operate in distressed industry sectors for the three and six months ended June 30, 2020, respectively. We recognized credit losses on securities due to: (i) our intent to sell them; (ii) adverse credit events indicating that we will not receive the security's contractual cash flows when contractually due, such as news of an impending filing for bankruptcy; (iii) analyses of the issuer's most recent financial statements or other information indicating that significant liquidity deficiencies, significant losses and large declines in capitalization exist; and (iv) analyses of rating agency information for issuances with severe ratings downgrades indicating a significant increase in the possibility of default.

The rollforward of the allowance for credit losses on available-for-sale securities were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands)			
Allowance for credit losses, beginning of period	$ 154	$ 37	$ -	$ -
Additions to the allowance for credit losses on securities for which credit losses were not previously recorded	-	465	154	502
Additional increases or (decreases) to the allowance for credit losses on securities that had an allowance recorded in a previous period	704	(37)	704	(37)
Allowance for credit losses, end of period	$ 858	$ 465	$ 858	$ 465

Derivatives. We carry a deferred loss related to closed forward contracts, which were settled several years ago, that were used to mitigate our exposure to foreign currency exchange rates that resulted from the net investment in our Canadian operations. The amount of deferred loss included in accumulated other comprehensive income was $26.4 million as of June 30, 2021 and December 31, 2020. These deferred losses will not be recognized until such time as we sell or substantially liquidate our Canadian operations; although we have no such intention.

(4) Fair Value of Financial Instruments

Fair value is the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Invested assets recorded at fair value are measured and classified in accordance with a three-tier fair value hierarchy based on observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our view of market assumptions in the absence of observable market information. We classify and disclose all invested assets carried at fair value in one of the following three levels:

- Level 1. Quoted prices for identical instruments in active markets. Level 1 consists of financial instruments whose value is based on quoted market prices in active markets, such as cash, cash equivalents in money market funds, exchange-traded common stocks and actively traded mutual fund investments;
- Level 2. Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable in active markets. Level 2 includes those financial instruments that are valued using industry-standard pricing methodologies, models or other valuation methodologies. Various inputs are considered in deriving the fair value of the underlying financial instrument, including interest rate and yield curves, credit spread, and foreign exchange rates. All significant inputs are observable, or derived from observable information in the marketplace or are supported by observable levels at which transactions are executed in the marketplace. Financial instruments in this category primarily include: cash equivalents and short-term investments in treasury securities, certain public and private corporate fixed-maturity and equity securities; government or agency securities; and certain mortgage- and asset-backed securities; and
- Level 3. Valuations derived from valuation techniques in which one or more significant inputs are unobservable. Level 3 consists of financial instruments whose fair value is estimated based on industry-standard pricing methodologies and models using significant inputs not based on, nor corroborated by, readily available market information. Valuations for this category primarily consist of non-binding broker quotes. Financial instruments in this category primarily include less liquid mortgage- and asset-backed securities and equity securities.

As of each reporting period, all assets and liabilities recorded at fair value are classified in their entirety based on the lowest level of input (Level 3 being the lowest in the hierarchy) that is significant to the fair value measurement. Significant levels of estimation and judgment are required to determine the fair value of certain of our investments. The factors influencing these estimations and judgments are subject to change in subsequent reporting periods.

The estimated fair value and hierarchy classifications for assets and liabilities that are measured at fair value on a recurring basis were as follows:

	June 30, 2021			
	Level 1	Level 2	Level 3	Total
	(In thousands)			
Fair value assets:

In estimating fair value of our investments, we use third-party pricing services for99% of our securities that are measured at fair value on a recurring basis. The remaining securities are primarily thinly-traded securities, such as private placements, and are valued using models based on observable inputs on public corporate spreads having similar characteristics (e.g., sector, average life and quality rating), liquidity and yield based on quality rating, average life and U.S. Treasury yields. All observable data inputs are corroborated by independent third-party data. We also corroborate pricing information provided by our third-party pricing service by performing a review of selected securities. Our review activities include: obtaining detailed information about the assumptions, inputs and methodologies used in pricing the security; documenting this information; and corroborating it by comparison to independently obtained prices and/or independently developed pricing methodologies.

Furthermore, we perform internal reasonableness assessments on fair value determinations within our portfolio throughout the year and as of year-end, including pricing variance analyses and comparisons to alternative pricing sources and benchmark returns. If a fair value appears unusual relative to these assessments, we will re-examine the inputs and may challenge a fair value assessment made by

the pricing service. If there is a known pricing error, we will request a reassessment by the pricing service. If the pricing service is unable to perform the reassessment on a timely basis, we will determine the appropriate price by requesting a reassessment from an alternative pricing service or other qualified source as necessary. We do not adjust quotes or prices except in a rare circumstance to resolve a known error.

Because many fixed-maturity securities do not trade on a daily basis, third-party pricing services generally determine fair value using industry-standard methodologies, which vary by asset class. For corporates, governments, and agency securities, these methodologies include developing prices by incorporating available market information such as U.S. Treasury curves, benchmarking of similar securities including new issues, sector groupings, quotes from market participants and matrix pricing. Observable information is compiled and integrates relevant credit information, perceived market movements and sector news. Additionally, security prices are periodically back-tested to validate and/or refine models as conditions warrant. Market indicators and industry and economic events are also monitored as triggers to obtain additional data. For certain structured securities (such as mortgage- and asset-backed securities) with limited trading activity, third-party pricing services generally use industry-standard pricing methodologies that incorporate market information, such as index prices or discounting expected future cash flows based on underlying collateral, and quotes from market participants, to estimate fair value. If one or more of these input measures are not deemed observable for a particular security, the security will be classified as Level 3 in the fair value hierarchy.

Where specific market information is unavailable for certain securities, pricing models produce estimates of fair value primarily using Level 2 inputs along with certain Level 3 inputs. These models include matrix pricing. The pricing matrix uses current U.S. Treasury rates and credit spreads received from third-party sources to estimate fair value. The credit spreads incorporate the issuer's industry- or issuer-specific credit characteristics and the security's time to maturity, if warranted. Remaining unpriced securities are valued using an estimate of fair value based on indicative market prices that include significant unobservable inputs not based on, nor corroborated by, market information, including the utilization of non-binding broker quotes.

The roll-forward of the Level 3 assets measured at fair value on a recurring basis was as follows:

	Three months ended June 30,		**Six months ended June 30,** [(1)]	
	2021	**2020**	**2021**	**2020**
		(In thousands)		
Level 3 assets, beginning of period	$ 4,177	$ 386	$ 2,047	$ 585
Net unrealized gains (losses) included in other comprehensive income	-	1	-	2
Realized gains (losses) and accretion (amortization) recognized in earnings	(150)	17	(234)	(8)
Purchases	999	-	999	-
Settlements	(2,190)	(171)	(2,190)	(346)
Transfers into Level 3	500	5,035	2,714	5,035
Transfers out of Level 3	-	-	-	-
Level 3 assets, end of period	$ 3,336	$ 5,268	$ 3,336	$ 5,268

(1) Activities for investments that enter Level 3 in one quarter and exit Level 3 in another quarter within the same fiscal year are not eliminated until year-end when only the full year amounts are presented.

We obtain independent pricing quotes based on observable inputs as of the end of the reporting period for all securities in Level 2. Those inputs include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, market bids/offers, quoted prices for similar instruments in markets that are not active, and other relevant data. We monitor these inputs for market indicators, industry and economic events. There were no material transfers between Level 1 and Level 3 during the three and six months ended June 30, 2021 and 2020.

The carrying values and estimated fair values of our financial instruments were as follows:

	June 30, 2021		December 31, 2020	
	Carrying value	Estimated fair value	Carrying value	Estimated fair value
	(In thousands)			
Assets:				
Fixed-maturity securities (available-for-sale)	$ 2,514,585	$ 2,514,585	$ 2,464,611	$ 2,464,611
Fixed-maturity security (held-to-maturity) (3)	1,368,740	1,572,889	1,346,350	1,606,208

Surplus note (1) (3)	1,368,194	1,564,889	1,345,772	1,596,599
Separate accounts	2,745,827	2,745,827	2,659,520	2,659,520

(1) Carrying value amounts shown are net of issuance costs.

(2) Classified as a Level 2 fair value measurement.

(3) Classified as a Level 3 fair value measurement.

The fair values of financial instruments presented above are estimates of the fair values at a specific point in time using various sources and methods, including market quotations and a complex matrix system that takes into account issuer sector, quality, and spreads in the current marketplace.

Financial Instruments Recognized at Fair Value in the Balance Sheet. Estimated fair values of investments in AFS securities are principally a function of current spreads and interest rates that are corroborated by independent third-party data. Therefore, the fair values presented are indicative of amounts we could realize or settle at the respective balance sheet date. We do not necessarily intend to dispose of or liquidate such instruments prior to maturity. Trading securities and equity securities, including common and nonredeemable preferred stocks, are carried at fair value. Segregated funds in separate accounts are carried at the underlying value of the variable insurance contracts, which is fair value.

The carrying amounts for cash and cash equivalents, trade receivables, accrued investment income, accounts payable, cash collateral and payables for security transactions approximate their fair values due to the short-term nature of these instruments. The carrying value for other debt obligations, which includes the Revolving Credit Facility (See Note 12 (Debt) for more information), also approximates fair value as the interest rate resets on a short-term basis. Consequently, such financial instruments are not included in the above table.

(5) Reinsurance

We use reinsurance extensively, which has a significant effect on our results of operations. Reinsurance arrangements do not relieve us of our primary obligation to the policyholder.

Details on in-force life insurance were as follows:

	June 30, 2021	December 31, 2020
	(Dollars in thousands)	
Direct life insurance in-force	$ 889,011,464	$ 861,392,223
Amounts ceded to other companies	(764,548,453)	(742,356,917)
Net life insurance in-force	$ 124,463,011	$ 119,035,306
Percentage of reinsured life insurance in-force	86 %	86 %

Benefits and claims ceded to reinsurers during the three and six months ended June 30, 2021 were $435.3 million and $987.9 million, respectively, compared to $460.5 million and $809.6 million, respectively, for the three and six months ended June 30, 2020.

Reinsurance recoverables as of June 30, 2021 and December 31, 2020 include ceded reserve balances, ceded claim liabilities, and ceded claims paid. Reinsurance recoverables and financial strength ratings by reinsurer were as follows:

	June 30, 2021		December 31, 2020	
	Reinsurance recoverables	A.M. Best rating	Reinsurance recoverables	A.M. Best rating

Allowance for credit losses	(7,654)		(7,144)	
Reinsurance recoverables	$ 4,239,510		$ 4,273,904	

NR – not rated

(1) Pecan Re Inc. is a wholly owned subsidiary of Swiss Re Life & Health America Inc.

(2) Reinsurance recoverables includes balances ceded under coinsurance transactions of term life insurance policies that were in-force as of December 31, 2009. Amounts shown are net of their share of the reinsurance recoverables from other reinsurers. Arrangements with these reinsurers include collateral trust agreements held in support of reinsurance recoverables.

(3) Includes amounts ceded to Transamerica Reinsurance Companies and fully retroceded to SCOR Global Life Reinsurance Companies.

(4) Includes amounts ceded to Lincoln National Life Insurance and fully retroceded to Swiss Re Life & Health America Inc.

(5) Entity is rated AA- by S&P.

We estimate and recognize lifetime expected credit losses for reinsurance recoverables. In estimating the allowance for expected credit losses for reinsurance recoverables, we factor in the underlying collateral for reinsurance agreements where available. Specifically, for reinsurers with underlying trust assets, we compare the reinsurance recoverables balance to the underlying trust assets that mitigate the potential exposure to credit losses. We also analyze the financial condition of the reinsurers, as determined by third-party rating agencies, to determine the probability of default for the reinsurers. We then utilize a third-party credit default study to calculate an expected credit loss given default rate or recovery rate. The probability of default and loss given default rates are then applied to the reinsurers' recoverable balance, while also factoring in any third-party letters of credit that support the reinsurance agreement, in order to calculate our current expected credit loss allowance.

The rollforward of the allowance for credit losses on reinsurance recoverables were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands)			
Balance, beginning of period	$ 7,363	$ 5,542	$ 7,144	$ 3,917
Current period provision for expected credit losses	291	60	510	1,685
Balance, at the end of period	$ 7,654	$ 5,602	$ 7,654	$ 5,602

(6) Policy Claims and Other Benefits Payable

Changes in policy claims incurred and other benefits payable were as follows:

	Six months ended June 30,	
	2021	2020
	(In thousands)	
Policy claims and other benefits payable, beginning of period	$ 519,711	$ 339,954
Less reinsured policy claims and other benefits payable	545,857	388,797
Net balance, beginning of period	(26,146)	(48,843)
Incurred related to current year	137,285	113,647
Incurred related to prior years (1)	(813)	(4,464)
Total incurred	136,472	109,183
Claims paid related to current year, net of reinsured policy claims received	(213,880)	(181,280)
Reinsured policy claims received related to prior years, net of claims paid	32,882	60,043
Total paid	(180,998)	(121,237)
Foreign currency translation	210	(297)
Net balance, end of period	(70,462)	(61,194)
Add reinsured policy claims and other benefits payable	541,752	473,640
Balance, end of period	$ 471,290	$ 412,446

(1) Includes the difference between our estimate of claims incurred but not yet reported as of period-end and the actual incurred claims reported after period-end.

The liability for policy claims and other benefits payable on traditional life insurance products includes estimated unpaid claims that have been reported to us and claims incurred but not yet reported. We estimate claims incurred but not yet reported based on our historical claims activity, adjusted for any current new trends and conditions, and reported lag time experience.

(7) Stockholders' Equity

A reconciliation of the number of shares of our common stock follows:

	Six months ended June 30,	
	2021	2020
	(In thousands)	
Common stock, beginning of period	$ 39,306	$ 41,207
Shares issued for stock options exercised	10	-
Shares of common stock issued upon lapse of restricted stock units ("RSUs")	176	239
Common stock retired	(48)	(1,779)
Common stock, end of period	$ 39,444	$ 39,667

The above reconciliation excludes RSUs and performance-based stock units ("PSUs"), which do not have voting rights. As sales restrictions on RSUs lapse and PSUs are earned, we issue common shares with voting rights. As of June 30, 2021, we had a total of 278,282 RSUs and 73,062 PSUs outstanding. The PSU outstanding balance is based on the number of PSUs granted pursuant to the award agreements; however, the actual number of common shares issued could be higher or lower based on actual versus targeted performance. See Note 9 (Share-Based Transactions) for discussion of the PSU award structure.

On February 9, 2021, our Board of Directors authorized a share repurchase program ("Share Repurchase Program") for up to $300.0 million of our outstanding common stock for purchases through June 30, 2022. We are under no obligation to repurchase shares under the Share Repurchase Program. There wereno repurchases during the quarter and, as a result, $300.0 million remains available for repurchases of our outstanding common stock under the Share Repurchase Program as of June 30, 2021.

(8) Earnings Per Share

The Company has outstanding common stock and equity awards that consist of RSUs, PSUs and stock options. The RSUs maintain non-forfeitable dividend rights that result in dividend payment obligations on a one-to-one ratio with common shares for any future dividend declarations.

Unvested RSUs are deemed participating securities for purposes of calculating earnings per share ("EPS") as they maintain dividend rights. We calculate EPS using the two-class method. Under the two-class method, we allocate earnings to common shares and vested RSUs outstanding for the period. Earnings attributable to unvested participating securities, along with the corresponding share counts, are excluded from EPS as reflected in our unaudited condensed consolidated statements of income.

In calculating basic EPS, we deduct from net income any dividends and undistributed earnings allocated to unvested RSUs and then divide the result by the weighted-average number of common shares and vested RSUs outstanding for the period.

We determine the potential dilutive effect of PSUs and stock options outstanding ("contingently-issuable shares") on EPS using the treasury-stock method. Under this method, we determine the proceeds that would be received from the issuance of the contingently-issuable shares if the end of the reporting period were the end of the contingency period. The proceeds from the contingently-issuable shares include the remaining unrecognized compensation expense of the awards and the cash received for the exercise price on stock options. We then use the average market price of our common shares during the period the contingently-issuable shares were

outstanding to determine how many shares we could repurchase with the proceeds raised from the issuance of the contingently-issuable shares. The net incremental share count issued represents the potential dilutive securities. We then reallocate earnings to common shares and vested RSUs by incorporating the increased fully-diluted share count to determine diluted EPS.

The calculation of basic and diluted EPS was as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands, except per-share amounts)			
Basic EPS:				
Numerator:				
Net income	$ 128,162	$ 101,510	$ 226,033	$ 173,979
Income attributable to unvested participating securities	(525)	(437)	(945)	(747)
Net income used in calculating basic EPS	$ 127,637	$ 101,073	$ 225,088	$ 173,232
Denominator:				
Weighted-average vested shares	39,531	40,132	39,493	40,632
Basic EPS	$ 3.23	$ 2.52	$ 5.70	$ 4.26
Diluted EPS:				
Numerator:				
Net income	$ 128,162	$ 101,510	$ 226,033	$ 173,979
Income attributable to unvested participating securities	(524)	(436)	(942)	(746)
Net income used in calculating diluted EPS	$ 127,638	$ 101,074	$ 225,091	$ 173,233
Denominator:				
Weighted-average vested shares	39,531	40,132	39,493	40,632
Dilutive effect of incremental shares to be issued for contingently-issuable shares	122	114	123	111
Weighted-average shares used in calculating diluted EPS	39,653	40,246	39,616	40,743
Diluted EPS	$ 3.22	$ 2.51	$ 5.68	$ 4.25

(9) Share-Based Transactions

The Company has outstanding equity awards under the Primerica, Inc. Second Amended and Restated 2010 Omnibus Incentive Plan ("2010 OIP"), which expired in 2020 in accordance with its terms and under which no future awards will be made, and the Primerica, Inc. 2020 Omnibus Incentive Plan (the "2020 OIP", and together with the 2010 OIP, the "OIP"), which was approved by the Company's stockholders on May 13, 2020. The OIP provides for the issuance of equity awards, including stock options, stock appreciation rights, restricted stock, deferred stock, RSUs, PSUs, and stock payment awards, as well as cash-based awards. In addition to time-based vesting requirements, awards granted under the OIP may also be subject to specified performance criteria. Under the OIP, the Company issues equity awards to our management (officers and other key employees), non-employees who served on our Board of Directors, and sales force leaders. For more information on equity awards granted under the OIP, see Note 14 (Share-Based Transactions) to our consolidated financial statements within our 2020 Annual Report.

In connection with our granting of equity awards to management and members of the Board of Directors, we recognize expense over the requisite service period of the equity award. We defer and amortize the fair value of equity awards granted to the sales force in the same manner as other deferred policy acquisition costs for those awards that are an incremental direct cost of successful acquisitions of life insurance policies that result directly from and are essential to the policy acquisition(s) and would not have been incurred had the policy acquisition(s) not occurred. All equity awards granted to the sales force that are not directly related to the successful acquisition of life insurance policies are recognized as expense as incurred, which is in the quarter granted and earned.

The impacts of equity awards granted are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands)			
Equity awards expense recognized	$ 2,539	$ 2,357	$ 14,192	$ 13,518
Equity awards expense deferred	2,730	2,599	5,179	4,958

On February 24, 2021, the Compensation Committee of our Board of Directors granted the following equity awards to employees as part of the annual approval of management incentive compensation:

- 73,705 RSUs awarded to management with a measurement-date fair value of $143.04 per unit that have time-based vesting requirements with equal and annual graded vesting over approximately three years subsequent to the grant date.

- 21,845 PSUs awarded under the 2020 OIP to our four top executives with a measurement-date fair value of $143.04 per unit. The PSUs will be earned on March 1, 2024 contingent upon the Company achieving a targeted annual average three-year return on adjusted equity (“ROAE”) and average EPS growth for the period from January 1, 2021 through December 31, 2023. The actual number of common shares that will be issued will vary based on the actual ROAE and average EPS growth relative to the targeted ROAE and average EPS growth and can range from zero to 32,767 shares.

All awards granted to employees on February 24, 2021 vest upon voluntary termination of employment by any employee who is “retirement eligible” as of his or her termination date. In order to be retirement eligible, an employee must be at least 55 years old and his or her age plus years of service with the Company must equal at least 75. The number of PSUs that will ultimately be issued for a retirement eligible employee is equal to the amount calculated using the Company’s actual cumulative three-year ROAE and average EPS growth, if applicable, for the relevant performance period ending on December 31, 2023, even if that employee retires prior to the completion of the three-year performance period.

(10) Commitments and Contingent Liabilities

Letter of Credit (“LOC”). Peach Re maintains a credit facility agreement with Deutsche Bank (the “Credit Facility Agreement”) to support certain obligations for a portion of the Regulation XXX reserves related to the Peach Re Coinsurance Agreement. Under the Credit Facility Agreement, Deutsche Bank issued a letter of credit for the benefit of Primerica Life with a term expiring on December 31, 2025. As of June 30, 2021, the amount of the LOC outstanding was $178.0 million. This amount will decline over the remaining term of the LOC to correspond with declines in the Regulation XXX reserves. As of June 30, 2021, the Company was in compliance with all financial covenants under the Credit Facility Agreement.

Further discussion on the Company’s letter of credit is included in Note 16 (Commitments and Contingent Liabilities) to our consolidated financial statements within our 2020 Annual Report.

Contingent Liabilities. The Company is involved from time to time in legal disputes, regulatory inquiries and arbitration proceedings in the normal course of business. These disputes are subject to uncertainties, including the large and/or indeterminate amounts sought in certain of these matters and the inherent unpredictability of litigation. As such, the Company is unable to estimate the possible loss or range of loss that may result from these matters unless otherwise indicated.

(11) Other Comprehensive Income

The components of other comprehensive income (“OCI”), including the income tax expense or benefit allocated to each component, were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands)			
Foreign currency translation adjustments:				
Change in unrealized foreign currency translation gains (losses) before income taxes	$ 7,390	$ 13,644	$ 12,382	$ (15,367)
Income tax expense (benefit) on unrealized foreign currency translation gains (losses)	-	-	-	-
Change in unrealized foreign currency translation gains (losses), net of income taxes	$ 7,390	$ 13,644	$ 12,382	$ (15,367)
Unrealized gain (losses) on available-for-sale securities:				
Change in unrealized holding gains (losses) arising during period before income taxes	$ 26,018	$ 121,164	$ (38,874)	$ 34,275
Income tax expense (benefit) on unrealized holding gains (losses) arising during period	5,524	25,937	(8,663)	7,623
Change in unrealized holding gains (losses) on available-for-sale securities arising during period, net of income taxes	20,494	95,227	(30,211)	26,652
Reclassification from accumulated OCI to net income for (gains) losses realized on available-for-sale securities	(705)	(231)	(1,173)	3,179
Income tax (expense) benefit on (gains) losses reclassified from accumulated OCI to net income	(148)	(48)	(246)	668
Reclassification from accumulated OCI to net income for (gains) losses realized on available-for-sale securities, net of income taxes	(557)	(183)	(927)	2,511
Change in unrealized gains (losses) on available-for-sale securities, net of income taxes and reclassification adjustment	$ 19,937	$ 95,044	$ (31,138)	$ 29,163

(12) Debt

Notes Payable. As of June 30, 2021, the Company had $375.0 million of publicly-traded, senior unsecured notes (the “Senior Notes”), with an annual interest rate of4.75% that are scheduled to mature on July 15, 2022. As of June 30, 2021, we were in compliance with

the covenants of the Senior Notes. No events of default occurred on the Senior Notes during the three and six months ended June 30, 2021.

Further discussion on the Company's Senior Notes is included in Note 10 (Debt) to our consolidated financial statements within our 2020 Annual Report.

Surplus Note. As of June 30, 2021, the principal amount outstanding on the Surplus Note issued by Vidalia Re was $1.3 billion, which is equal to the principal amount of the LLC Note. The principal amount of both the Surplus Note and the LLC Note will fluctuate over time to coincide with the amount of policy reserves being contractually supported under the Vidalia Re Coinsurance Agreement. Both the LLC Note and the Surplus Note mature on December 31, 2030 and bear interest at an annual interest rate of 4.50%. Based on the estimated reserves for policies issued in 2011 through 2017 that have been ceded under the Vidalia Re Coinsurance Agreement, the principal amounts of the Surplus Note and the LLC Note are expected to reach $1.5 billion each. This financing arrangement is non-recourse to the Parent Company and Primerica Life, meaning that neither of these companies has guaranteed the Surplus Note or is otherwise liable for reimbursement for any payments triggered by the LLC Note's credit enhancement feature. The Parent Company has agreed to support Vidalia Re's obligation to pay the credit enhancement fee incurred on the LLC Note.

Further discussion on the Company's LLC Note is included in Note 3 (Investments).

Revolving Credit Facility. On June 22, 2021, we amended and restated our unsecured $200.0 million revolving credit facility ("Revolving Credit Facility") with a syndicate of commercial banks. The Revolving Credit Facility has a scheduled termination date of June 22, 2026. Amounts outstanding under the Revolving Credit Facility are borrowed, at our discretion, on the basis of either a LIBOR rate loan, or a base rate loan. LIBOR rate loans bear interest at a periodic rate equal to one-, three-, six-, or 12-month LIBOR, plus an applicable margin. Base rate loans bear interest at the highest of (a) the Prime Rate, (b) the Federal Funds Rate plus 0.50% and (c) one-month LIBOR plus 1.00%, plus an applicable margin. The Revolving Credit Facility contains language providing for a benchmark replacement in the event that LIBOR is no longer available. The Revolving Credit Facility also permits the issuance of letters of credit. The applicable margins are based on our debt rating with such margins for LIBOR rate loans and letters of credit ranging from 1.00% to 1.625% per annum and for base rate loans ranging from 0.00% to 0.625% per annum. Under the Revolving Credit Facility, we incur a commitment fee that is payable quarterly in arrears and is determined by our debt rating. This commitment fee ranges from 0.10% to 0.225% per annum of the aggregate amount of the $200.0 million commitment of the lenders under the Revolving Credit Facility that remains undrawn. As of June 30, 2021, $125.0 million was drawn under the Revolving Credit Facility in anticipation of the acquisition of 80% of the operating subsidiaries of Etelequote Limited (see Note 14 (Subsequent Events)). As of June 30, 2021, we were in compliance with the covenants of the Revolving Credit Facility. Furthermore, no events of default have occurred under the Revolving Credit Facility in the three and six months ended June 30, 2021.

(13) Revenue from Contracts with Customers

Our revenues from contracts with customers primarily include:

- Commissions and fees earned for the marketing and distribution of investment and savings products underwritten by mutual fund companies and annuity providers. For purposes of revenue recognition, mutual fund companies and annuity providers are considered the customers in marketing and distribution arrangements.
- Fees earned for investment advisory and administrative services within our managed investments program.
- Account-based fees for transfer agent recordkeeping functions and non-bank custodial services.
- Fees associated with the distribution of other third-party financial products.
- Other revenue from the sale of miscellaneous products and services including monthly subscription fees from the sales representatives for access to Primerica Online ("POL"), our primary sales force support tool.

Premiums from insurance contracts we underwrite, fees received from segregated funds insurance contracts, and income earned on our invested assets are excluded from the definition of revenues from contracts with customers in accordance with U.S. GAAP.

Further discussion on the Company's revenues from contracts with customers and revenue recognition policies are included in Note 18 (Revenue from Contracts with Customers) to our consolidated financial statements within our 2020 Annual Report.

The disaggregation of our revenues from contracts with customers were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands)			
Term Life Insurance segment revenues:				
Other, net	$ 12,313	$ 11,426	$ 24,125	$ 21,594
Total segment revenues from contracts with customers	12,313	11,426	24,125	21,594
Revenues from sources other than contracts with customers	371,223	316,807	741,440	634,385
Total Term Life Insurance segment revenues	$ 383,536	$ 328,233	$ 765,565	$ 655,979
Investment and Savings Products segment revenues:				
Commissions and fees				
Sales-based revenues	$ 104,716	$ 62,812	$ 202,828	$ 143,704
Asset-based revenues	92,288	64,666	177,901	131,659
Account-based revenues	21,848	20,478	42,968	40,682
Other, net	2,958	2,745	5,907	5,287
Total segment revenues from contracts with customers	221,810	150,701	429,604	321,332
Revenues from sources other than contracts with customers (segregated funds)	16,202	13,480	31,830	27,881
Total Investment and Savings Products segment revenues	$ 238,012	$ 164,181	$ 461,434	$ 349,213
Corporate and Other Distributed Products segment revenues:				
Commissions and fees [1]	$ 15,634	$ 10,352	$ 29,206	$ 17,931
Other, net	1,042	865	1,875	1,820
Total segment revenues from contracts with customers	16,676	11,217	31,081	19,751
Revenues from sources other than contracts with customers	16,462	22,184	34,319	25,808
Total Corporate and Other Distributed Products segment revenues	$ 33,138	$ 33,401	$ 65,400	$ 45,559

(1) Commissions and fees for the three and six months ended June 30, 2021 included $1.5 million and $2.6 million, respectively, and for the three and six months ended June 30, 2020 included $1.5 million and $2.6 million, respectively, attributable to performance obligations satisfied in a previous reporting period and represent the collection of variable consideration in the transaction price that had been previously constrained.

We recognize revenue upon the satisfaction of the related performance obligation, unless the transaction price includes variable consideration that is constrained; in such case, we recognize revenue when the uncertainty associated with the constrained amount is subsequently resolved. Variable consideration is not treated as constrained to the extent it is probable that no significant reversal in the amount of cumulative revenue recognized will occur when the uncertainty associated with the variable consideration is resolved. We have no material obligations for refunds of commission and fees on contracts with customers subsequent to completion of our performance obligation.

Contract Balances. For revenue associated with ongoing renewal commissions we receive subsequent to the satisfaction of our performance obligation, we record a contract asset for the amount of ongoing renewal commissions we anticipate collecting in reporting periods subsequent to the sale or referral, less amounts that are constrained in other assets. The contract asset is reduced for commissions that are billed and become due receivables from product providers during the reporting period.

Activity in the contract asset account was as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
	(In thousands)		(In thousands)	
Balance, beginning of period	$ 55,704	$ 51,499	$ 54,845	$ 51,701
Current period sales, net of collection of renewal commissions	979	1,024	1,838	822
Balance, at the end of period	$ 56,683	$ 52,523	$ 56,683	$ 52,523

No significant estimate adjustments were made to the contract asset andno impairment losses were recognized on the contract asset during the three and six months ended June 30, 2021 and 2020.

Incremental costs to obtain or fulfill contracts, most notably sales commissions to the sales representatives, are not incurred prior to the recognition of the related revenue. Therefore, we have no assets recognized for incremental costs to obtain or fulfill contracts.

(14) Subsequent Events

On July 1, 2021, the Company acquired an 80% interest, as described in the next paragraph, in the operating subsidiaries of Etelequote Limited ("Etelequote Bermuda"), including e-TeleQuote Insurance, Inc. ("e-TeleQuote"), a Florida corporation that is a senior health insurance distributor of Medicare-related insurance policies in all 50 states and Puerto Rico (the "Acquisition").

The Company's recently formed subsidiary, Primerica Health, Inc. ("Primerica Health"), purchased from the shareholders of Etelequote Bermuda (the "selling shareholders") 100% of the issued and outstanding capital stock of e-TeleQuote and its subsidiaries for consideration of (i) approximately $350 million in cash, (ii) replacement of e-TeleQuote's debt as of the closing date of $146 million with intercompany funding provided by the Parent Company, (iii) $15 million in an unsecured, subordinated note, guaranteed by the Parent Company and issued by Primerica Health to Etelequote Bermuda's majority shareholder (the "Majority Shareholder Note") and (iv) common shares of Primerica Health constituting 20% of the total issued and outstanding shares of capital stock of Primerica Health that were issued to Etelequote Bermuda's minority shareholders, most of which include or are beneficially owned by e-TeleQuote's management. Under the terms of the purchase agreement, the Parent Company will purchase the remaining 20% stake over a period of up to four years. The purchase agreement also contemplates the potential for contingent consideration of up to $50 million to be paid by the Parent Company to the selling shareholders in the form of earnout payments of up to $25 million in each of 2022 and 2023. The Parent Company funded the Acquisition using cash on hand, a draw on its Revolving Credit Facility, and the Majority Shareholder Note.

Because the Acquisition occurred subsequent to June 30, 2021, no results of operations for e-TeleQuote are included in our unaudited condensed consolidated statements of operations for the three or six months ended June 30, 2021. Given the short time period from the closing date to the issuance of the unaudited condensed consolidated financial statements, the initial accounting is not yet complete and therefore we are unable to disclose the amounts recognized for assets and liabilities acquired, fair value of the consideration transferred, or pro forma financial information combining both companies as of the earliest periods presented in the unaudited condensed consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to inform the reader about matters affecting the financial condition and results of operations of Primerica, Inc. (the "Parent Company") and its subsidiaries (collectively, "we", "us" or the "Company") for the period from December 31, 2020 to June 30, 2021. As a result, the following discussion should be read in conjunction with MD&A and the consolidated financial statements and notes thereto that are included in our Annual Report on Form 10-K for the year ended December 31, 2020 ("2020 Annual Report"). This discussion contains forward-looking statements that constitute our plans, estimates and beliefs. These forward-looking statements involve numerous risks and uncertainties, including, but not limited to, those discussed under the heading "Risk Factors" in the 2020 Annual Report and in Item 1A of this Report. Actual results may differ materially from those contained in any forward-looking statements.

This MD&A is divided into the following sections:

- Business Overview
- Business Trends and Conditions
- Factors Affecting Our Results
- Critical Accounting Estimates
- Results of Operations
- Financial Condition
- Liquidity and Capital Resources

Business Overview

We are a leading provider of financial products to middle-income households in the United States and Canada through a network of independent contractor sales representatives ("sales representatives" or "sales force"). We assist our clients in meeting their needs for term life insurance, which we underwrite, and mutual funds, annuities, managed investments and other financial products, which we distribute primarily on behalf of third parties. We have two primary operating segments, Term Life Insurance and Investment and Savings Products; and a third segment, Corporate and Other Distributed Products.

Term Life Insurance. We distribute the term life insurance products that we underwrite through our three issuing life insurance company subsidiaries: Primerica Life Insurance Company ("Primerica Life"), National Benefit Life Insurance Company ("NBLIC"), and Primerica Life Insurance Company of Canada ("Primerica Life Canada"). Policies remain in-force until the expiration of the coverage period or until the policyholder ceases to make premium payments. Our in-force term life insurance policies have level premiums for the stated term period. As such, the policyholder pays the same amount each year. Initial policy term periods are between 10 and 35 years. While premiums typically remain level during the initial term period, our claim obligations generally increase as our policyholders age. In addition, we incur significant upfront costs in acquiring new insurance business. Our deferral and amortization of policy acquisition costs and reserving methodology are designed to match the recognition of premium revenues with the timing of policy lapses and the payment of expected claims obligations.

Investment and Savings Products. In the United States, we distribute mutual funds, managed investments, variable annuity, and fixed annuity products of several third-party companies. We provide investment advisory and administrative services for client assets invested in our managed investments program. We also perform distinct transfer agent recordkeeping services and non-bank custodial services for investors purchasing certain mutual funds we distribute. In Canada, we offer our own Primerica-branded mutual funds, as well as mutual funds of other companies, and segregated funds, which are underwritten by Primerica Life Canada.

Corporate and Other Distributed Products. Our Corporate and Other Distributed Products segment consists primarily of revenues and expenses related to other distributed products, including closed blocks of various insurance products underwritten by NBLIC, prepaid legal services, mortgage originations, and other financial products. These products, except for closed blocks of various insurance products underwritten by NBLIC, are distributed pursuant to distribution arrangements with third-party companies through the independent sales force. Net investment income earned on our invested asset portfolio is recorded in our Corporate and Other Distributed Products segment, with the exception of the assumed net interest accreted to our Term Life Insurance segment's future policy benefit reserve liability less deferred acquisition costs. Interest expense incurred by the Company is attributed solely to the Corporate and Other Distributed Products segment.

Acquisition. On July 1, 2021, the Company acquired an 80% interest, as described in the next paragraph, in the operating subsidiaries of Etelequote Limited ("Etelequote Bermuda"), including e-TeleQuote Insurance, Inc. ("e-TeleQuote"), a Florida corporation that is a senior health insurance distributor of Medicare-related insurance policies in all 50 states and Puerto Rico (the "Acquisition").

The Company's recently formed subsidiary, Primerica Health, Inc. ("Primerica Health"), purchased from the shareholders of Etelequote Bermuda (the "selling shareholders") 100% of the issued and outstanding capital stock of e-TeleQuote and its subsidiaries for consideration of (i) approximately $350 million in cash, (ii) replacement of e-TeleQuote's debt as of the closing date of $146 million with intercompany funding provided by the Parent Company, (iii) $15 million in an unsecured, subordinated note, guaranteed by the Parent Company and issued by Primerica Health to Etelequote Bermuda's majority shareholder (the "Majority Shareholder

Note") and (iv) common shares of Primerica Health constituting 20% of the total issued and outstanding shares of capital stock of Primerica Health that were issued to Etelequote Bermuda's minority shareholders, most of which include or are beneficially owned by e-TeleQuote's management. Under the terms of the purchase agreement, the Parent Company will purchase the remaining 20% stake over a period of up to four years. The purchase agreement also contemplates the potential for contingent consideration of up to $50 million to be paid by the Parent Company to the selling shareholders in the form of earnout payments of up to $25 million in each of 2022 and 2023. TheParent Company funded the Acquisition using cash on hand, a draw on its Revolving Credit Facility, and the Majority Shareholder Note.

Beginning in the third quarter of 2021, the Company will report the operating results of e-TeleQuote and its subsidiaries in its own operating segment called Senior Health.

Business Trends and Conditions

The relative strength and stability of financial markets and economies in the United States and Canada affect our growth and profitability. Our business is, and we expect will continue to be, influenced by a number of industry-wide and product-specific trends and conditions. Economic conditions, including unemployment levels and consumer confidence, influence investment and spending decisions by middle-income consumers, who are generally our primary clients. These conditions and factors also impact prospective recruits' perceptions of the business opportunity that becoming a sales representative offers, which can drive or dampen recruiting. Consumer spending and borrowing levels affect how consumers evaluate their savings and debt management plans. In addition, interest rates and equity market returns impact consumer demand for the savings and investment products we distribute. Our customers' perception of the strength of the capital markets may influence their decisions to invest in the investment and savings products we distribute.

The financial and distribution results of our operations in Canada, as reported in U.S. dollars, are affected by changes in the currency exchange rate. As a result, changes in the Canadian dollar exchange rate may significantly affect the result of our business for all amounts translated and reported in U.S. dollars.

The ongoing coronavirus COVID-19 ("COVID-19") pandemic has continued to impact our business in 2021, as discussed in more detail later in this section, the Results of Operations section, and the Financial Condition section. We expect COVID-19 will continue to create uncertainty in the following business trends and conditions:

- After nearly 18 months into the COVID-19 pandemic, businesses are repopulating their facilities and people are resuming their pre-pandemic activities. The focus on licensing by new recruits has been challenged as the reopening expands and people are resuming their social and travel activities. Meanwhile, most states are getting back to normal testing capacity and candidates have more flexibility to access pre-licensing classes with both in-person and remote options becoming available. However, the threat of mutations of COVID-19, including the Delta variant, continue to create uncertainty. As a result, repopulation and other activities are likely to experience additional periods of slowdown. The timing and extent of the impact these dynamics will have on licensing activity in future periods remains uncertain.
- We have experienced an increase in mortality expense due to premature deaths of our insureds caused by COVID-19 infections. We expect that vaccinations will eventually cause our elevated mortality experience to normalize. However, with the emergence of variants and the reluctance of a portion of the population to be vaccinated, it remains difficult to predict the ultimate impact the COVID-19 pandemic will have on our business in future periods. Any increase in mortality expense will be mitigated by reinsurance as we have ceded a significant majority of our mortality risk to reinsurers we believe to be creditworthy.
- To date, the impact of COVID-19 has led to historically high levels of persistency throughout all policy durations and increased policy sales as a result of strong public sentiment towards owning life insurance products. It is unknown how long these trends will continue and to what level persistency and policy sales will normalize as the current fear associated with the COVID-19 pandemic subsides. Refer to the Factors Affecting Our Results section for more information about how persistency impacts our financial results.

The effects of business trends and conditions on our quarterly results are discussed below, in the Results of Operations section, and in the Financial Condition section.

Size of the Independent Sales Force.

Our ability to increase the size of the independent sales force is largely based on the success of the sales force's recruiting efforts as well as training and motivating recruits to get licensed to sell life insurance. We believe that recruitment and licensing levels are important to sales force trends, and growth in recruiting and licensing is usually indicative of future growth in the overall size of the sales force. Changes in the number of new recruits do not always result in commensurate changes in the size of the licensed sales force because new recruits may obtain the requisite licenses at rates above or below historical levels.

Details on new recruits and life-licensed sales representative activity were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
New recruits	89,285	133,123	183,918	217,885
New life-licensed sales representatives	10,112	12,250	20,945	22,849

The size of the life-licensed independent sales force was as follows:

	June 30, 2021	June 30, 2020
Life-licensed sales representatives	132,041	134,157

The number of new recruits decreased during the three and six months ended June 30, 2021 compared to the same periods in 2020. The year-over-year comparisons were impacted by different recruiting incentives put in place during the periods to drive results. We also noted that the impact of the lockdown in 2020 at the onset of the COVID-19 pandemic benefited recruiting results in the 2020 periods as the sales force had a more captive focus on recruiting activities.

New life-licensed sales representatives decreased during the three and six months ended June 30, 2021 compared to the same periods in 2020 primarily as people have prioritized the resumption of social and travel activities over pre-licensing and testing activities.

The Company had 132,041 independent life-licensed representatives as of June 30, 2021 compared to 134,157 as of June 30, 2020. The number of independent life-licensed representatives as of June 30, 2021 included approximately 2,400 individuals with COVID-19 temporary licenses or extended renewal dates, the majority of which are not expected to remain as part of our sales force. At June 30, 2020, approximately 7,800 individuals with COVID-19 temporary licenses or extended renewal dates were included in the life-licensed sales representatives total of 134,157, some of which ultimately did not take the steps necessary to obtain a permanent license or did not renew their license.

Term Life Insurance Product Sales and Face Amount In-Force.

The average number of life-licensed sales representatives and the number of term life insurance policies issued, as well as the average monthly rate of new policies issued per life-licensed sales representative (historically between 0.18 and 0.22), were as follows:

	Three months ended June 30,		Six months ended June 30,	
	2021	2020	2021	2020
Average number of life-licensed sales representatives	131,975	131,562	132,481	130,939
Number of new policies issued	90,071	94,044	172,738	165,362
Average monthly rate of new policies issued per life-licensed sales representative	0.23	0.24	0.22	0.21

New policies issued during the three months ended June 30, 2021 decreased compared to the same period in 2020, but remain elevated compared to historical volumes. New policies issued in 2020 were elevated as a result of a surge of new policies issued as the onset of the COVID-19 pandemic highlighted the need for protection products. New policies issued during the six months ended June 30, 2021 increased compared to the same period in 2020 due to continued favorable public sentiment for protection products in response to the COVID-19 pandemic. The ability of life-licensed sales representatives to adapt to the use of virtual communication tools, combined with extensive point-of-sales technologies and existing products, allow them to readily meet our clients' needs. These factors drove productivity higher than the historical range for the three months ended June 30, 2021 and to the high end of our historical range for the six months ended June 30, 2021. While current period sales of new policies remain relatively strong, a change in public sentiment that is less favorable to protection products following the pandemic could adversely impact sales in future periods.

The changes in the face amount of our in-force book of term life insurance policies were as follows:

	Three months ended June 30,				Six months ended June 30,			
	2021	% of beginning balance	2020	% of beginning balance	2021	% of beginning balance	2020	% of beginning balance
	(Dollars in millions)							
Face amount in force, beginning of period	$ 869,643		$ 804,512		$ 858,818		$ 808,262	
Net change in face amount:								
Issued face amount	29,981	3%	27,754	3%	56,624	7%	50,975	6%
Terminations	(14,706)	(2)%	(14,315)	(2)%	(31,946)	(4)%	(32,609)	(4)%
Foreign currency	1,601	*	4,047	1%	3,023	*	(4,630)	(1)%
Net change in face amount	16,876	2%	17,486	2%	27,701	3%	13,736	2%
Face amount in force, end of period	$ 886,519		$ 821,998		$ 886,519		$ 821,998	

* Less than 1%.

The face amount of term life policies in-force increased 2% and 3%, respectively, for the three and six months ended June 30, 2021 as the level of face amount issued continued to exceed the face amount terminated. As a percentage of the beginning face amount in-force, issued face amount as well as terminated face amount during the three and six months ended June 30, 2021, respectively,

remained consistent with the comparable 2020 periods and illustrate the strong demand for both buying and maintaining protection products. During the three and six months ended June 30, 2021 and the three months ended June 30, 2020, the effect of a stronger Canadian dollar in relation to the U.S. dollar increased the translated face amount of existing policies in-force and increased the overall issued face amount. Conversely, during the six months ended June 30, 2020, the strengthening of the U.S. dollar in relation to the Canadian dollar reduced the translated face amount in-force.

Investment and Savings Products Sales, Asset Values and Accounts/Positions.

Investment and savings products sales and average client asset values were as follows:

	Three months ended June 30, 2021	Three months ended June 30, 2020	Change $	Change %	Six months ended June 30, 2021	Six months ended June 30, 2020	Change $	Change %
	(Dollars in millions)

Redemptions	(1,827)	(2)%	(1,074)	(2)%	(3,585)	(4)%	(2,777)	(4)%
Net flows	1,214	1 %	613	1 %	2,309	3 %	1,156	2 %
Change in fair value, net	4,433	5 %	8,171	14 %	7,521	9 %	(2,894)	(4)%
Foreign currency, net	200	*	404	1 %	372	*	(575)	(1)%
Net change in asset values	5,847	7 %	9,188	16 %	10,202	13 %	(2,313)	(3)%
Asset values, end of period	$ 91,735		$ 68,224		$ 91,735		$ 68,224	

* Less than 1%.

Average number of fee-generating positions was as follows:

	Three months ended June 30, 2021	Three months ended June 30, 2020	Change Positions	Change %	Six months ended June 30, 2021	Six months ended June 30, 2020	Change Positions	Change %
	(Positions in thousands)							
Average number of fee-generating positions (1):								
Recordkeeping and custodial	2,159	2,048	111	5 %	2,137	2,039	98	5 %
Recordkeeping only	741	671	70	10 %	727	665	62	9 %
Total average number of fee-generating positions	2,900	2,719	181	7 %	2,864	2,704	160	6 %

(1) We receive recordkeeping fees by mutual fund positions. An individual client account may include multiple mutual fund positions. We may also receive fees, which are earned on a per account basis, for custodial services that we provide to clients with retirement plan accounts that hold positions in these mutual funds.

Changes in Investment and Savings Products Sales, Asset Values and Accounts/Positions During the Three Months Ended June 30, 2021

Product sales. Investment and savings products sales increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 led by higher sales of retail mutual funds, variable annuities, and managed investments. This increase is mainly due to the continued strength in equity market conditions that have fueled investor confidence and emphasis on the importance of saving for the future.

Average client asset values. Average client asset values increased for the three months ended June 30, 2021 compared to the three months ended June 30, 2020 primarily due to continued market appreciation between the periods and continued positive net flows. In addition, average client asset values in 2020 were negatively impacted by the initial market reaction to economic uncertainty associated with the onset of the COVID-19 pandemic.

Rollforward of client asset values. Ending client asset values increased for the three months ended June 30, 2021 compared to the three months ended June 30, 2020, due to market appreciation and continued inflows from product sales, which outpaced redemptions. Strong market performance lifted client asset values during the 2021 periods but not to the extent it did in 2020 due to the significant recovery from the initial lows experienced at the onset of the COVID-19 pandemic.

Average number of fee-generating positions. The average number of fee-generating positions increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 primarily due to the cumulative effect of retail mutual fund sales in recent periods that led to an increase in the number of retail mutual fund positions serviced on our transfer agent recordkeeping platform.

Changes in Investment and Savings Products Sales, Asset Values and Accounts/Positions During the Six Months Ended June 30, 2021

Product sales. Investment and savings products sales increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 primarily due to the same factors discussed above in the three-month comparison.

Average client asset values. Average client asset values increased for the six months ended June 30, 2021 compared to the six months ended June 30, 2020 primarily due to the same factors discussed above in the three-month comparison.

Rollforward of client asset values. Ending client asset values increased for the six months ended June 30, 2021 compared to the six months ended June 30, 2020 primarily due to overall market appreciation experienced throughout the first half of 2021. Comparatively, the impact of market performance caused a decrease in client asset values during the six months ended June 30, 2020 as the market did not fully recover from the initial reaction to the COVID-19 pandemic by the end of the prior year period. Elevated net flows also contributed to the increase in client asset values during the six months ended June 30, 2021 versus the prior year period.

Average number of fee-generating positions. The average number of fee-generating positions increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 primarily due to the same factors discussed above in the three-month comparison.

Other business trends and conditions.

Standards of care. The SEC's regulation Best Interest ("Reg BI"), which establishes a "best interest" standard of conduct and imposes certain disclosure requirements, went into effect on June 30, 2020. Its higher standards of care and enhanced obligations increase regulatory and litigation risk. In addition, on December 15, 2020, the Department of Labor ("DOL") published an interpretation of, and class exemption regarding, the rules governing fiduciary investment advice with respect to Individual Retirement Accounts ("IRAs") and other retirement accounts (the "DOL Rule"). The effective date of the DOL Rule was February 16, 2021 and the DOL extended its non-enforcement policy through December 20, 2021. The DOL Rule imposes a higher standard of care and enhanced obligations that require sales process changes and increase regulatory and litigation risk to our business. The interpretation and enforcement of Reg BI and the DOL Rule by the SEC and the DOL, respectively, remain uncertain and could have the potential to disrupt our investment and savings products business in the U.S.

In addition to federal regulators, certain states have proposed or passed laws or proposed or issued regulations requiring investment advisers, broker-dealers, and/or insurance agents to meet fiduciary standards or standards of care that their advice be in the customer's best interest, and to mitigate and disclose conflicts of interest to consumers of investment and insurance products. The severity of the impact that such state laws or regulations could have on our business varies from state to state depending on the content of the legislation or regulation and how it would be applied by state regulators and interpreted by the courts, but such laws or regulations could disrupt our brokerage or advisory businesses in the relevant state. We cannot quantify the financial impact, if any, of any changes to our business that may be necessary in order to comply with such laws or regulations at this time.

Worker classification standards. There has been a trend toward administrative and legislative activity around worker classification. In 2019, for example, California enacted Assembly Bill 5 ("AB 5"), which imposes a stricter test for the classification of workers as independent contractors. Our business lines are exempted from AB 5. In 2020, the Department of Labor commenced a rulemaking to clarify the classification standard under the Fair Labor Standards Act. That process resulted in a final rule which since has been withdrawn by the new administration. The House of Representatives has passed the Protecting the Right to Organize Act ("PRO Act"), which includes a new worker classification test under the National Labor Relations Act. Other federal and state legislative and regulatory proposals regarding worker classification also are under consideration. While none of these proposals have advanced into law, they demonstrate increased legislative and administrative activity around worker classification. It is difficult to predict what the ultimate outcome of this activity may be. Changes to worker classification laws could impact our business as our sales representatives are independent contractors.

Restrictions on compensation models in Canada. The organization of provincial and territorial securities regulators (collectively referred to as the "Canadian Securities Administrators" or "CSA") have published final rule amendments to prohibit upfront sales commissions by fund companies for the sale of mutual funds offered under a prospectus in Canada ("DSC Ban"). The final amendments have an effective date of June 1, 2022. The CSA indicated that the prohibition of upfront sales commissions by fund companies will require firms to discontinue the use of the mutual fund deferred sales charge compensation model, which is the primary model for the mutual funds we distribute in Canada. These rules will result in changes in compensation arrangements with both the fund companies that offer the mutual fund products we distribute and sales representatives. The deferred sales charge compensation model is permitted to be used until the effective date. We have not finalized the changes we will make in response to the DSC Ban. Therefore, we are unable to quantify the potential impact on our financial condition or results of operations.

Factors Affecting Our Results

Refer to the Business Trends and Conditions section for discussion of the potential impact on our business from the COVID-19 pandemic.

Term Life Insurance Segment. Our Term Life Insurance segment results are primarily driven by sales volumes, how closely actual experience matches our pricing assumptions, terms and use of reinsurance, and expenses.

Sales and policies in-force. Sales of term policies and the size and characteristics of our in-force book of policies are vital to our results over the long term. Premium revenue is recognized as it is earned over the term of the policy, and eligible acquisition expenses are deferred and amortized ratably with the level premiums of the underlying policies. However, because we incur significant cash outflows at or about the time policies are issued, including the payment of sales commissions and underwriting costs, changes in life insurance sales volume in a period will have a more immediate impact on our cash flows than on revenue and expense recognition in that period.

Historically, we have found that while sales volume of term life insurance products between fiscal periods may vary based on a variety of factors, the productivity of sales representatives generally remains within a range (i.e., an average monthly rate of new policies issued per life-licensed sales representative between 0.18 and 0.22). The volume of our term life insurance products sales will fluctuate in the short term, but over the longer term, our sales volume generally correlates to the size of the independent sales force.

Pricing assumptions. Our pricing methodology is intended to provide us with appropriate profit margins for the risks we assume. We determine pricing classifications based on the coverage sought, such as the size and term of the policy, and certain policyholder attributes, such as age and health. In addition, we generally utilize unisex rates for our term life insurance policies. The pricing assumptions that underlie our rates are based upon our best estimates of mortality, persistency, disability, and interest rates at the time of issuance, sales force commission rates, issue and underwriting expenses, operating expenses and the characteristics of the insureds, including the distribution of sex, age, underwriting class, product and amount of coverage. Our results will be affected to the extent there is a variance between our pricing assumptions and actual experience.

- *Persistency*. Persistency is a measure of how long our insurance policies stay in-force. As a general matter, persistency that is lower than our pricing assumptions adversely affects our results over the long term because we lose the recurring revenue stream associated with the policies that lapse. Determining the near-term effects of changes in persistency is more complicated. When actual persistency is lower than our pricing assumptions, we must accelerate the amortization of deferred policy acquisition costs ("DAC"). The resultant increase in amortization expense is offset by a corresponding release of reserves associated with lapsed policies, which causes a reduction in benefits and claims expense. The future policy benefit reserves associated with any given policy will change over the term of such policy. As a general matter, future policy benefit reserves are lowest at the inception of a policy term and rise steadily to a peak before declining to zero at the expiration of the policy term. Accordingly, depending on when the lapse occurs in relation to the overall policy term, the reduction in benefits and claims expense may be greater or less than the increase in amortization expense, and, consequently, the effects on earnings for a given period could be positive or negative. Persistency levels will impact results to the extent actual experience deviates from the persistency assumptions that are locked-in at time of issue.
- *Mortality.* Our profitability will fluctuate to the extent actual mortality rates differ from the assumptions that are locked-in at time of issue. We mitigate a significant portion of our mortality exposure through reinsurance.
- *Disability.* Our profitability will fluctuate to the extent actual disability rates, including recovery rates for individuals currently disabled, differ from the assumptions that are locked-in at the time of issue or time of disability.
- *Interest Rates.* We use an assumption for future interest rates that initially reflects the portfolio's current reinvestment rate gradually increasing over seven years to a level consistent with our expectation of future yield growth. Both DAC and the future policy benefit reserve liability increase with the assumed interest rate. Since DAC is higher than the future policy benefit reserve liability in the early years of a policy, a lower assumed interest rate generally will result in lower profits. In the later years, when the future policy benefit reserve liability is higher than DAC, a lower assumed interest rate generally will result in higher profits. These assumed interest rates, which like other pricing assumptions are locked-in at issue, impact the timing but not the aggregate amount of DAC and future policy benefit reserve changes. We allocate net investment income generated by the investment portfolio to the Term Life Insurance segment in an amount equal to the assumed net interest accreted to the segment's U.S. generally accepted accounting principles ("U.S. GAAP")-measured

future policy benefit reserve liability less DAC. All remaining net investment income, and therefore the impact of actual interest rates, is attributed to the Corporate and Other Distributed Products segment.

Reinsurance. We use reinsurance extensively, which has a significant effect on our results of operations.We have generally reinsured between 80% and 90% of the mortality risk on our term life insurance (excluding coverage under certain riders) on a quota share yearly renewable term ("YRT") basis. To the extent actual mortality experience is more or less favorable than the contractual rate, the reinsurer will earn incremental profits or bear the incremental cost, as applicable. In contrast to coinsurance, which is intended to eliminate all risks (other than counterparty risk of the reinsurer) and rewards associated with a specified percentage of the block of policies subject to the reinsurance arrangement, the YRT reinsurance arrangements we enter into are intended only to reduce volatility associated with variances between estimated and actual mortality rates.

In 2010, as part of our corporate reorganization and the initial public offering of our common stock, we entered into significant coinsurance transactions (the "IPO coinsurance transactions") with entities then affiliated with Citigroup, Inc. (collectively, the "IPO coinsurers") and ceded between 80% and 90% of the risks and rewards of our term life insurance policies that were in-force at year-end 2009. We administer all such policies subject to these coinsurance agreements. Policies reaching the end of their initial level term period are no longer ceded under the IPO coinsurance transactions.

The effect of our reinsurance arrangements on ceded premiums and benefits and expenses on our statements of income follows:

- *Ceded premiums.* Ceded premiums are the premiums we pay to reinsurers. These amounts are deducted from the direct premiums we earn to calculate our net premium revenues. Similar to direct premium revenues, ceded coinsurance premiums remain level over the initial term of the insurance policy. Ceded YRT premiums increase over the period that the policy has been in-force. Accordingly, ceded YRT premiums generally constitute an increasing percentage of direct premiums over the policy term.
- *Benefits and claims.* Benefits and claims include incurred claim amounts and changes in future policy benefit reserves. Reinsurance reduces incurred claims in direct proportion to the percentage ceded. Coinsurance also reduces the change in future policy benefit reserves in direct proportion to the percentage ceded, while YRT reinsurance does not significantly impact the change in these reserves.
- *Amortization of DAC.* DAC, and therefore amortization of DAC, is reduced on a pro-rata basis for the coinsured business, including the business reinsured with the IPO coinsurers. There is no impact on amortization of DAC associated with our YRT contracts.
- *Insurance expenses.* Insurance expenses are reduced by the allowances received from coinsurance. There is no impact on insurance expenses associated with our YRT contracts.

We may alter our reinsurance practices at any time due to the unavailability of YRT reinsurance at attractive rates or the availability of alternatives to reduce our risk exposure. We presently intend to continue ceding approximately 90% of our U.S. and Canadian mortality risk on new business.

Expenses. Results are also affected by variances in client acquisition, maintenance and administration expense levels.

Investment and Savings Products Segment. Our Investment and Savings Products segment results are primarily driven by sales, the value of assets in client accounts for which we earn ongoing management, marketing and support, and distribution fees, and the number of transfer agent recordkeeping positions and non-bank custodial fee-generating accounts we administer.

Sales. We earn commissions and fees, such as dealer re-allowances and marketing and distribution fees, based on sales of mutual fund products and annuities. Sales of investment and savings products are influenced by the overall demand for investment products in the United States and Canada, as well as by the size and productivity of the independent sales force. We generally experience seasonality in our Investment and Savings Products segment results due to our high concentration of sales of retirement account products. These accounts are typically funded in February through April, coincident with our clients' tax return preparation season. While we believe the size of the independent sales force is a factor in driving sales volume in this segment, there are a number of other variables, such as economic and market conditions, which may have a significantly greater effect on sales volume in any given fiscal period.

Asset values in client accounts. We earn marketing and distribution fees (trail commissions or, with respect to U.S. mutual funds, 12b-1 fees) on mutual fund and annuity assets in the United States and Canada. In the United States, we also earn investment advisory and administrative fees on assets in managed investments. In Canada, we earn management fees on certain mutual fund assets and on the segregated funds for which we serve as investment manager. Asset values are influenced by new product sales, ongoing contributions to existing accounts, redemptions and the change in market values in existing accounts. While we offer a wide variety of asset classes and investment styles, our clients' accounts are primarily invested in equity funds.

Positions. We earn transfer agent recordkeeping fees for administrative functions we perform on behalf of several of our mutual fund providers. An individual client account may include multiple fund positions for which we earn transfer agent recordkeeping fees. We may also receive fees earned for non-bank custodial services that we provide to clients with retirement plan accounts.

Sales mix. While our investment and savings products all provide similar long-term economic returns to the Company, our results in a given fiscal period will be affected by changes in the overall mix of products within these categories. Examples of changes in the sales mix that influence our results include the following:

- sales of annuity products in the United States will generate higher revenues in the period such sales occur than sales of other investment products that either generate lower upfront revenues or, in the case of managed investments and segregated funds, no upfront revenues;
- sales of a higher proportion of managed investments and segregated funds products will spread the revenues generated over time because we earn higher revenues based on assets under management for these accounts each period as opposed to earning upfront revenues based on product sales; and
- sales of a higher proportion of mutual fund products sold will impact the timing and amount of revenue we earn given the distinct transfer agent recordkeeping and non-bank custodial services we provide for certain mutual fund products we distribute.

Corporate and Other Distributed Products Segment. We earn revenues and pay commissions and referral fees within our Corporate and Other Distributed Products segment for mortgage loan originations, prepaid legal services, auto and homeowners' insurance referrals, and other financial products, all of which are originated by third parties. Our Corporate and Other Distributed Products segment also includes in-force policies from several discontinued lines of insurance underwritten by National Benefit Life Insurance Company ("NBLIC").

Corporate and Other Distributed Products segment net investment income reflects actual net investment income recognized by the Company less the amount allocated to our Term Life Insurance segment based on the assumed net interest accreted to the segment's U.S. GAAP-measured future policy benefit reserve liability less DAC. Actual net investment income reflected in the Corporate and Other Distributed Products segment is impacted by the size and performance of our invested asset portfolio, which can be influenced by interest rates, credit spreads, and the mix of invested assets.

The Corporate and Other Distributed Products segment also includes corporate income and expenses not allocated to our other segments, general and administrative expenses (other than expenses that are allocated to our Term Life Insurance or Investment and Savings Products segments), interest expense on notes payable, redundant reserve financing transactions and our Revolving Credit Facility, as well as realized gains and losses on our invested asset portfolio.

Capital Structure. Our financial results are affected by our capital structure, which includes our senior unsecured notes (the "Senior Notes"), redundant reserve financing transactions, our Revolving Credit Facility, and our common stock. See Note 7 (Stockholders' Equity), Note 10 (Commitments and Contingent Liabilities), and Note 12 (Debt) to our unaudited condensed consolidated financial statements included elsewhere in this report for more information on changes in our capital structure.

Foreign Currency. The Canadian dollar is the functional currency for our Canadian subsidiaries and our consolidated financial results, reported in U.S. dollars, are affected by changes in the currency exchange rate. As such, the translated amount of revenues, expenses, assets and liabilities attributable to our Canadian subsidiaries will be higher or lower in periods where the Canadian dollar appreciates or weakens relative to the U.S. dollar, respectively. See Item 7A. Quantitative and Qualitative Disclosures About Market Risk – Canadian Currency Risk included in our 2020 Annual Report and Note 2 (Segment and Geographical Information) to our unaudited condensed consolidated financial statements included elsewhere in this report for more information on our Canadian subsidiaries and the impact of foreign currency on our financial results.

Critical Accounting Estimates

We prepare our financial statements in accordance with U.S. GAAP. These principles are established primarily by the Financial Accounting Standards Board. The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions based on currently available information when recording transactions resulting from business operations. Our significant accounting policies are described in Note 1 (Description of Business, Basis of Presentation, and Summary of Significant Accounting Policies) to our consolidated financial statements included in our 2020 Annual Report. The most significant items on our unaudited condensed consolidated balance sheets are based on fair value determinations, accounting estimates and actuarial determinations, which are susceptible to changes in future periods and could affect our results of operations and financial position.

The estimates that we deem to be most critical to an understanding of our results of operations and financial position are those related to DAC, future policy benefit reserves and corresponding amounts recoverable from reinsurers, income taxes, and the valuation of investments. The preparation and evaluation of these critical accounting estimates involve the use of various assumptions developed from management's analyses and judgments. Subsequent experience or use of other assumptions could produce significantly different results.

Accounting Policy Changes.

During the three and six months ended June 30, 2021, there were no changes in the accounting methodology for items that we have identified as critical accounting estimates. For additional information regarding our critical accounting estimates, see the Critical Accounting Estimates section of MD&A included in our 2020 Annual Report.

Results of Operations

Primerica, Inc. and Subsidiaries Results. Our results of operations were as follows:

	Three months ended June 30, 2021	Three months ended June 30, 2020	Change $	Change %	Six months ended June 30, 2021	Six months ended June 30, 2020	Change $	Change %

Results for the Three Months Ended June 30, 2021

Total revenues. Total revenues increased during the three months ended June 30, 2021 compared to the same period in 2020 driven by higher commissions and fees earned in the Investment and Savings Products segment and growth in net premiums in the Term Life segment. Commissions and fees earned during the three months ended June 30, 2021 compared to the same period in 2020 increased in part due to higher sales-based revenues driven by strong demand for mutual fund and variable annuity products. Also contributing to the increase in commissions and fees was growth in asset-based revenues, reflecting higher average client asset values driven by market appreciation and continued positive net flows since the prior year period. The increase in Term Life net premiums were also impacted by incremental premiums on term life insurance policies that are not subject to the IPO coinsurance transactions as well as the layering effect of strong sales of life insurance and significant positive persistency trends experienced across all policy durations as a result of favorable public sentiment for protection products since the onset of the COVID-19 pandemic.

Net investment income decreased during the three months ended June 30, 2021 compared to the same period in 202(due to a $1.9 million negative impact from lower yields on the invested asset portfolio and a lower total return on the deposit asset backing the 10% coinsurance agreement that is subject to deposit method accounting. Th lower year-over-year total return of $2.6 million on this deposit asset was due to a positive mark-to-market return in the prior year period as fixed income prices recovered from the low levels seen at the end of the first quarter of 2020. These decreases were partially offset by a $3.5 million positive impact from growth in the invested asset portfolio Investment income net of investment expenses includes interest earned on our held-to-maturity asset, which is completely offset by interest expense on surplus note, thereby eliminating any impact on net investment income. Amounts recognized for each line item will remain offsetting and will fluctuate from period to period along with the principal amounts of the held-to-maturity asset and the surplus note based on the balance of reserves being contractually supported under a redundant reserve financing transaction used by Vidalia Re, Inc. (“Vidalia Re Financing Transaction”). For more information on the Vidalia Re Financing Transaction, see Note 3 (Investments) and Note 12 (Debt) to our unaudited condensed consolidated financial statements included elsewhere in this report.

Other, net revenues increased during the three months ended June 30, 2021 compared to the same period in 2020 largely due to the increase in fees received for access to Primerica Online (“POL”), our primary sales force support tool. The increase in these fees is consistent with subscriber growth. Fees collected for POL subscriptions are allocated between our Term Life Insurance segment and our Investment and Savings Products segment based on the estimated number of sales representatives that are licensed to sell products

in each segment. The increase in these fees was accompanied by higher spending reflected in insurance and other operating expenses to support and enhance POL.

Total benefits and expenses. Total benefits and expenses increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 largely due to higher sales commissions as a result of the increases in sales-based and asset-based revenues discussed above. Also contributing to the increase were the growth in benefits and claims due to growth in our in-force book of business, including the impact of positive persistency trends experienced since March 2020. COVID-19 related claims in excess of historical trends declined during the three months ended June 30, 2021 versus the same period in 2020 while non-COVID-19 related claims in excess of historical trends increased year-over-year. Other operating expenses were also higher in the three months ended June 30, 2021 due to growth in the business and various initiatives to support business development.

Income taxes. Our effective income tax rate for the three months ended June 30, 2021 was 24.4%, consistent with 24.3% for the three months ended June 30, 2020.

Results for the Six Months Ended June 30, 2021

Total revenues. Net premiums and Commissions and fees increased during the six months ended June 30, 2021 compared to the same period in 2020 primarily due to the same factors discussed above in the three-month comparison.

Net investment income increased during the six months ended June 30, 2021 compared to the same period in 2020 largely due to the positive impact from a higher total return on the deposit asset backing the 10% coinsurance agreement that is subject to deposit method accounting. The $2.5 million higher total return on this deposit asset was due to a negative mark-to-market adjustment during the prior year period as fixed-maturity income security prices fell as a result of the market's reaction to economic uncertainty at the onset of the COVID-19 pandemic. Also contributing to an increase in net investment income was growth in the invested asset portfolio, which resulted in an increase in net investment income of $6.1 million, partially offset by lower yields on our invested asset portfolio of $4.1 million compared to the comparable 2020 period. Investment income net of investment expenses includes interest earned on our held-to-maturity invested asset, which is completely offset by interest expense on surplus note, thereby eliminating any impact on net investment income. Amounts recognized for each line item will remain offsetting and will fluctuate from period to period along with the principal amounts of the held-to-maturity asset and the surplus note based on the balance of reserves being contractually supported under a redundant reserve financing transaction used by Vidalia Re, Inc. ("Vidalia Re Financing Transaction"). For more information on the Vidalia Re Financing Transaction, see Note 3 (Investments) and Note 12 (Debt) to our unaudited condensed consolidated financial statements and included elsewhere in this report.

Realized investment gains (losses) increased to a gain during the six months ended June 30, 2021 compared to a loss in the same period in 2020 primarily due to a $1.5 million positive mark-to-market adjustment on equity securities held within our investment portfolio during the six months ended June 30, 2021 compared to $5.2 million negative mark-to-market adjustment on equity securities held within our investment portfolio in the comparable 2020 period as a result of market reaction to the economic disruption caused by the onset of the COVID-19 pandemic. Also contributing to the realized investment loss during the six months ended June 30, 2020 was the recognition of $3.8 million of credit losses for specific issuers that operated in distressed industry sectors that were particularly affected by the economic disruption caused by the onset of the COVID-19 pandemic. By comparison, during the six months ended June 30, 2021, only $0.9 million of credit losses were recognized.

Other, net revenues increased during the six months ended June 30, 2021 compared to the same period in 2020 largely due to the same factors discussed in the three-month comparison above.

Total benefits and expenses. Total benefits and expenses increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 primarily due to the factors discussed above in the three-months comparison. Also contributing to the increase were growth in benefits and claims as a result of higher mortality experience caused by the COVID-19 pandemic during the six months ended June 30, 2021 compared to the six months ended June 30, 2020.

Income taxes. Our effective income tax rate for the six months ended June 30, 2021 was 24.1%, relatively consistent with 23.9% for the six months ended June 30, 2020.

For additional information, see the Segment Results discussions below.

Segment Results

Term Life Insurance Segment Results. Our results for the Term Life Insurance segment were as follows:

	Three months ended June 30,		Change		Six months ended June 30,		Change

Insurance commissions	4,785	2,884	1,901	66 %	9,654	6,169	3,485	56 %
Total benefits and expenses	266,760	233,329	33,431	14 %	560,553	478,185	82,368	17 %
Income before income taxes	$ 116,776	$ 94,904	$ 21,872	23 %	$ 205,012	$ 177,794	$ 27,218	15 %

Results for the Three Months Ended June 30, 2021

Net premiums. Direct premiums increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 largely due to continued strong sales of new policies in recent periods that contributed to growth in the in-force book of business. Also contributing to the increase in direct premiums are high levels of persistency experienced during recent periods as a result of favorable public sentiment for protection products since the onset of the COVID-19 pandemic. This is partially offset by an increase in ceded premiums, which includes $20.1 million in higher non-level YRT reinsurance ceded premiums as business not subject to the IPO coinsurance transactions ages, reduced by $9.0 million in lower coinsurance ceded premiums due to the run-off of business subject to the IPO coinsurance transactions.

Allocated investment income. Allocated investment income increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 due to an increase in the assumed net interest accreted to our Term Life Insurance segment's future policy benefit reserve liability less deferred acquisition costs as our Term Life Insurance segment's in-force business continues to grow.

Benefits and claims. Benefits and claims increased during the three months ended June 30, 2021 compared to the same period in 2020 primarily due to growth in net premiums and increases to reserves due to favorable persistency trends. Total benefits and claims during the three months ended June 30, 2021 also includes approximately $9 million in claims in excess of historical trends, driven by $6 million of COVID-19 related claims and $3 million of other claims not identified as COVID-19. This compares with COVID-19 related claims of approximately $10 million in the second quarter 2020. Benefit reserve increases due to higher persistency were approximately $6 million for the three months ended June 30, 2021 compared to approximately $4 million for the same period in 2020.

Amortization of DAC. The amortization of DAC decreased slightly during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 due to high levels of persistency experienced for all policy durations as a result of favorable public sentiment for protection products since the onset of the COVID-19 pandemic. While we normally expect the amortization of DAC to increase as the business grows, this significant shift in persistency has slowed down the amortization on our existing book of business. This reduced the amortization of DAC from pre-COVID-19 historical levels by approximately $14 million for the three months ended June 30, 2021 compared to approximately $8 million for the same period in 2020.

Insurance expenses. Insurance expenses increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 primarily due to an increase in expenses to support growth in the business and employee-related expenses.

Insurance commissions. Insurance commissions increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 as a result of higher non-deferrable sales force incentives.

Results for the Six Months Ended June 30, 2021

Net premiums. Direct premiums increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 due to the same factors discussed in the three-month comparison. This is partially offset by an increase in ceded premiums, which includes $39.7 million in higher non-level YRT reinsurance ceded premiums as business not subject to the IPO coinsurance transactions ages, reduced by $19.2 million in lower coinsurance ceded premiums due to the run-off of business subject to the IPO coinsurance transactions.

Allocated investment income. Allocated investment income increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 due to the same factors discussed in the three-month comparison.

Benefits and claims. Benefits and claims increased during the six months ended June 30, 2021 compared to the same period in 2020 primarily due to higher mortality experience as a result of the COVID-19 pandemic as well as larger reserve increases due to favorable persistency trends and growth in net premiums. Total benefits and claims experience increased during the six months ended June 30, 2021 by approximately $30 million of claims in excess of historical trends, driven by $27 million of COVID-19 related claims and $3 million of other claims not identified as COVID-19, compared to approximately $10 million of excess claims due to COVID-19 in the same period in 2020. Benefit reserve increases due to higher persistency were approximately $13 million for the six months ended June 30, 2021 compared to approximately $4 million for the same period in 2020.

Amortization of DAC. The amortization of DAC decreased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 as a result of the higher levels of persistency discussed in the three-month comparison. This reduced the amortization of DAC from pre-COVID-19 historical levels by approximately $26 million for the six months ended June 30, 2021 compared to approximately $11 million for the same period in 2020.

Insurance expenses. Insurance expenses increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 primarily due to an increase in expenses of $8.5 million as a result of growth in the business and employee-related expenses. This increase was partially offset by a decrease in expenses of $5.0 million as a result of event cancellations and a reduction in sales force-related expenses in 2021 caused by the COVID-19 pandemic.

Insurance commissions. Insurance commissions increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 primarily due to the same factors discussed in the three-month comparison above.

Investment and Savings Products Segment Results. Investment and Savings Products segment results were as follows:

Results for the Three Months Ended June 30, 2021

Commissions and fees. Commissions and fees increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 in part due to higher sales-based revenues driven by robust demand for mutual fund and variable annuity investment products. Comparatively, the 2020 period experienced lower sales-based revenues due to weakened demand for investment products caused by market volatility at the onset of the COVID-19 pandemic. Also contributing to the increase were growth in asset-based revenues reflecting higher average client asset values driven by market appreciation and continued higher net flows. The growth in account-based revenues is consistent with growth in the number of retail mutual fund positions serviced on our transfer agent recordkeeping platform.

Amortization of DAC. Amortization of DAC increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 due to the difference in the market performance of the funds underlying our Canadian segregated funds product in the second quarter of 2021 compared to the second quarter of 2020. The performance of these funds was stronger in 2020 as markets partially recovered from lows associated with the onset of the COVID-19 pandemic.

Sales commissions. The increase in sales-based and asset-based commissions for the three months ended June 30, 2021 compared to the three months ended June 30, 2020 were generally consistent with the increase in sales-based and asset-based revenue.

Other operating expenses. Other operating expenses increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 primarily due to growth in the business and employee-related expenses.

Results for the Six Months Ended June 30, 2021

Commissions and fees. Commissions and fees increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 due to the same factors as described in the three-month comparison above.

Amortization of DAC. Amortization of DAC remained relatively consistent during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 as the market performance of the funds underlying the Canadian segregated funds product were comparable between the two periods.

Sales commissions. The increase in sales-based and asset-based commissions for the six months ended June 30, 2021 compared to the six months ended June 30, 2020 were in line with the increase in sales-based and asset-based commissions revenues.

Other operating expenses. Other operating expenses increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 due to the same factors as described in the three-month comparison above.

Corporate and Other Distributed Products Segment Results. Corporate and Other Distributed Products segment results were as follows:

* Less than 1% or not meaningful.

Results for the Three Months Ended June 30, 2021

Total revenues. Total revenues decreased slightly during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 led by lower net investment income and realized investment gains. The decrease in net investment income was attributed to the items discussed in the Primerica, Inc. and Subsidiaries Results of Operations section above as well as the impact of more net investment income being allocated to the Term Life Insurance segment. These decreases were partially offset by an increase in commissions and fees, which was primarily the result of the continued expansion of our U.S. mortgage distribution business. Closed mortgage loan volume of $298.6 million generated mortgage commission revenues of $6.1 million during the three months ended June 30, 2021 compared to closed mortgage loan volume of $65.8 million and mortgage commission revenues of $1.3 million during the three months ended June 30, 2020.

Total benefits and expenses. Total benefits and expenses increased during the three months ended June 30, 2021 compared to the three months ended June 30, 2020 as a result of higher other operating expenses primarily due to technology and employee-related expenses. Also contributing to the increase in other operating expenses were approximately $2.1 million in transaction-related expenses incurred in connection with the acquisition of e-TeleQuote. Sales commissions and other operating expenses were $3.1 million higher driven by increased sales in our U.S. mortgage distribution business. Benefits and claims increased $1.6 million during the three months ended June 30, 2021 as a result of the lower interest rate environment and increased persistency on a closed block of non-term life insurance business written by NBLIC.

Results for the Six Months Ended June 30, 2021

Total revenues. Total revenues increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 in large part due to growth in commissions and fees, which was primarily the result of the continued expansion of our U.S. mortgage distribution business. Closed mortgage loan volume of $560.9 million generated mortgage commission revenues of $11.0 million during the six months ended June 30, 2021 compared to closed mortgage loan volume of $78.7 million and mortgage commission revenues of $1.5 million during the six months ended June 30, 2020. Also contributing to the increase in total revenues were realized investment gains recognized in the 2021 period versus realized investment losses recognized in the 2020 period as discussed in the Primerica, Inc. and Subsidiaries Results of Operations section above. These increases were partially offset by a decrease in net investment income during the six months ended June 30, 2021 versus the six months ended June 30, 2020, which is primarily attributable to the impact of more net investment income being allocated to the Term Life Insurance segment.

Total benefits and expenses. Total benefits and expenses increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 as a result of higher other operating expenses based on the factors discussed in the three-month comparison. Sales commissions and other operating expenses were $6.6 million higher driven by increased sales in our U.S. mortgage distribution business. Benefits and claims remained consistent as increased benefits and claims in 2021 on non-term life business written by NBLIC, as described in the three-month comparison, was offset by the year-over-year impact of recognition of a $1.6 million allowance in the 2020 period for ceded claims on a closed block of business that may not be collected from a reinsurer that was ordered into receivership.

Financial Condition

Investments. Our insurance business is primarily focused on selling term life insurance, which does not include an investment component for the policyholder. The invested asset portfolio funded by premiums from our term life insurance business does not involve the substantial asset accumulations and spread requirements that exist with other non-term life insurance products. As a result, the profitability of our term life insurance business is not as sensitive to the impact that interest rates have on our invested asset portfolio and investment income as the profitability of other companies that distribute non-term life insurance products.

We follow a conservative investment strategy designed to emphasize the preservation of our invested assets and provide adequate liquidity for the prompt payment of claims. To meet business needs and mitigate risks, our investment guidelines provide restrictions on our portfolio’s composition, including limits on asset type, per issuer limits, credit quality limits, portfolio duration, limits on the amount of investments in approved countries and permissible security types. We also manage and monitor our allocation of investments to limit the accumulation of any disproportionate concentrations of risk among industry sectors or issuer countries outside of the U.S. and Canada. In addition, as of June 30, 2021, we did not hold any country of issuer concentrations outside of the U.S. or Canada that represented more than 5% of the fair value of our available-for-sale invested asset portfolio or any industry concentrations of corporate bonds that represented more than 10% of the fair value of our available-for-sale invested asset portfolio.

We invest a portion of our portfolio in assets denominated in Canadian dollars to support our Canadian operations. Additionally, to ensure adequate liquidity for payment of claims, we take into account the maturity and duration of our invested asset portfolio and our general liability profile.

We also hold within our invested asset portfolio a credit enhanced note (“LLC Note”) issued by a limited liability company owned by a third-party service provider which is classified as a held-to-maturity security. The LLC Note, which is scheduled to mature on December 31, 2030, was obtained in exchange for the Surplus Note of equal principal amount issued by Vidalia Re. For more information on the LLC Note, see Note 3 (Investments) to our unaudited condensed consolidated financial statements included elsewhere in this report.

We have an investment committee composed of members of our senior management team that is responsible for establishing and maintaining our investment guidelines and supervising our investment activity. Our investment committee regularly monitors our overall investment results and our compliance with our investment objectives and guidelines. We use a third-party investment advisor to assist us in the management of our investing activities. Our investment advisor reports to our investment committee.

Our invested asset portfolio is subject to a variety of risks, including risks related to general economic conditions, market volatility, interest rate fluctuations, liquidity risk and credit and default risk. Investment guideline restrictions have been established to minimize the effect of these risks but may not always be effective due to factors beyond our control. Interest rates and credit spreads are highly sensitive to many factors, including governmental monetary policies, domestic and international economic and political conditions and other factors beyond our control. A significant increase in interest rates or credit spreads could result in significant losses, realized or unrealized, in the value of our invested asset portfolio.

Details on asset mix (excluding our held-to-maturity security) were as follows:

	June 30, 2021	December 31, 2020
Average rating of our fixed-maturity portfolio	A-	A
Average duration of our fixed-maturity portfolio	4.8 years	4.7 years
Average book yield of our fixed-maturity portfolio	3.31%	3.44%

The distribution of fixed-maturity securities in our investment portfolio (excluding our held-to-maturity security) by rating, including those classified as trading securities, were as follows:

	June 30, 2021		December 31, 2020	
	Amortized cost (1)	%	Amortized cost (1)	%
	(Dollars in thousands)			
AAA	$ 399,729	16 %	$ 433,763	19 %

(1) Includes trading securities at fair value and available-for-sale securities at amortized cost.

For additional information on our invested asset portfolio, see Note 3 (Investments) to our unaudited condensed consolidated financial statements included elsewhere in this report.

Liquidity and Capital Resources

Dividends and other payments to the Parent Company from its subsidiaries are our principal sources of cash. The amount of dividends paid by the subsidiaries is dependent on their capital needs to fund future growth and applicable regulatory restrictions. The primary uses of funds by the Parent Company include the payments of stockholder dividends, repurchases of common shares outstanding, interest on notes payable and our Revolving Credit Facility, general operating expenses, and income taxes. Additionally, over the next four years, use of funds at the Parent Company will include the purchase of the remaining 20% minority interest of e-TeleQuote. As of June 30, 2021, the Parent Company had cash and invested assets of $666.0 million, of which $496.3 million was utilized in the purchase of e-TeleQuote on July 1, 2021.

The Parent Company's subsidiaries generate operating cash flows primarily from term life insurance premiums (net of premiums ceded to reinsurers), income from invested assets, commissions and fees collected from the distribution of investment and savings products as well as other financial products. The subsidiaries' principal operating cash outflows include the payment of insurance claims and benefits (net of ceded claims recovered from reinsurers), commissions to the sales force, insurance and other operating expenses, interest expense for future policy benefit reserves financing transactions, and income taxes.

The distribution and underwriting of term life insurance requires upfront cash outlays at the time the policy is issued as we pay a substantial majority of the sales commission during the first year following the sale of a policy and incur costs for underwriting activities at the inception of a policy's term. During the early years of a policy's term, we generally receive level term premiums in excess of claims paid. We invest the excess cash generated during earlier policy years in fixed-maturity and equity securities held in support of future policy benefit reserves. In later policy years, cash received from the maturity or sale of invested assets is used to pay claims in excess of level term premiums received.

e-TeleQuote is a senior health insurance distributor of Medicare-related insurance plans. e-Tele-Quote collects cash receipts over a number of years after selling a plan, while the cash outflow for commission expense and other acquisition costs to sell the plans are

generally recognized at the time of enrollment. Therefore, as a growing business, net cash flows at e-TeleQuote are expected to be negative for several years, with the Parent Company providing working capital to e-TeleQuote via an intercompany loan agreement.

Historically, cash flows generated by our businesses, primarily from our existing block of term life policies and our investment and savings products, have provided us with sufficient liquidity to meet our operating requirements. We have maintained strong cash flows despite the COVID-19 pandemic due to strong persistency and reinsurance on ceded mortality claims. We anticipate that cash flows from our businesses will continue to provide sufficient operating liquidity over the next 12 months.

If necessary, we could seek to enhance our liquidity position or capital structure through sales of our available-for-sale investment portfolio, changes in the timing or amount of share repurchases, additional borrowings against our revolving credit facility, sales of common stock or debt instruments in the capital markets, or some combination of these sources. Additionally, we believe that cash flows from our businesses and potential sources of funding will sufficiently support our long-term liquidity needs.

Cash Flows. The components of the changes in cash and cash equivalents were as follows:

	Six months ended June 30,		Change
	2021	2020	$
	(In thousands)		
Net cash provided by (used in) operating activities	$ 274,793	$ 316,425	$ (41,632)
Net cash provided by (used in) investing activities	(133,068)	2,734	(135,802)
Net cash provided by (used in) financing activities	81,102	(214,943)	296,045
Effect of foreign exchange rate changes on cash	4,195	(741)	4,936
Change in cash and cash equivalents	$ 227,022	$ 103,475	$ 123,547

Operating Activities. The largest factor contributing to the decrease in cash provided by operating activities during the six months ended June 30, 2021 compared to the six months ended June 30, 2021 was higher cash paid for income taxes. In 2020, U.S. and Canadian tax authorities allowed for the postponement of estimated interim income tax payments until after the second quarter to provide relief to companies at the onset of the COVID-19 pandemic. The impact of elevated claims payments made during the six months ended June 30, 2021 was largely offset by the collection of ceded claims from reinsurers.

Investing Activities. Cash used in investing activities increased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 as a result of higher purchases of investment securities. During the 2020 period, we temporarily paused purchases of investment securities in order to preserve liquidity at the onset of the COVID-19 pandemic. In addition, during the six months ended June 30, 2021, purchases of securities within our investment portfolio increased due to higher interest rates which provided more attractive investment opportunities for the Company. The increase in purchases in 2021 was partially offset by higher sales of investment securities as the Company accumulated cash in anticipation of the e-TeleQuote acquisition.

Financing Activities. Cash used in financing activities decreased during the six months ended June 30, 2021 compared to the six months ended June 30, 2020 as we did not execute share repurchases in 2021 in order to accumulate cash used to fund the acquisition of e-TeleQuote on July 1, 2021. In addition, during the six months ended June 30, 2021, cash provided by financing activities included $125 million borrowed from our Revolving Credit Facility to purchase e-TeleQuote.

Risk-Based Capital ("RBC"). The National Association of Insurance Commissioners ("NAIC") has established RBC standards for U.S. life insurers, as well as a risk-based capital model act (the "RBC Model Act") that has been adopted by the insurance regulatory authorities. The RBC Model Act requires that life insurers annually submit a report to state regulators regarding their RBC based upon four categories of risk: asset risk; insurance risk; interest rate risk and business risk. The capital requirement for each is determined by applying factors that vary based upon the degree of risk to various asset, premiums and policy benefit reserve items. The formula is an early warning tool to identify possible weakly capitalized companies for purposes of initiating further regulatory action.

As of June 30, 2021, our U.S. life insurance subsidiaries maintained statutory capital and surplus substantially in excess of the applicable regulatory requirements and remain well positioned to support existing operations and fund future growth.

In Canada, an insurer's minimum capital requirement is overseen by the Office of the Superintendent of Financial Institutions ("OSFI") and determined as the sum of the capital requirements for five categories of risk: asset default risk; mortality/morbidity/lapse risks; changes in interest rate environment risk; segregated funds risk; and foreign exchange risk. As of June 30, 2021, Primerica Life Insurance Company of Canada was in compliance with Canada's minimum capital requirements as determined by OSFI.

Redundant Reserve Financings. The Model Regulation entitled Valuation of Life Insurance Policies, commonly known as Regulation XXX, requires insurers to carry statutory policy benefit reserves for term life insurance policies with long-term premium guarantees which are often significantly in excess of the future policy benefit reserves that insurers deem necessary to satisfy claim obligations ("redundant policy benefit reserves"). Accordingly, many insurance companies have sought ways to reduce their capital needs by financing redundant policy benefit reserves through bank financing, reinsurance arrangements and other financing transactions.

We have established Peach Re, Inc. ("Peach Re") and Vidalia Re as special purpose financial captive insurance companies and wholly owned subsidiaries of Primerica Life. Primerica Life has ceded certain term life policies issued prior to 2011 to Peach Re as part of a

Regulation XXX redundant reserve financing transaction (the "Peach Re Redundant Reserve Financing Transaction") and has ceded certain term life policies issued in 2011 through 2017 to Vidalia Re as part of a Regulation XXX redundant reserve financing transaction (the "Vidalia Re Redundant Reserve Financing Transaction"). These redundant reserve financing transactions allow us to more efficiently manage and deploy our capital.

The NAIC has adopted a model regulation for determining reserves using a principle-based approach ("principle-based reserves" or "PBR"), which is designed to reflect each insurer's own experience in calculating reserves and move away from a standardized reserving formula. Primerica Life adopted PBR as of January 1, 2018. The adoption of PBR facilitated extending the premium guarantees for Primerica Life for the entire initial term period for new sales. The PBR regulation will significantly reduce the statutory policy benefit reserve requirements, but will apply only for business issued after the effective date. As a result, we expect that the adoption of PBR will significantly reduce the need to engage in future redundant reserve financing transactions for business issued after the effective date. See Note 4 (Investments), Note 10 (Debt) and Note 16 (Commitments and Contingent Liabilities) to our consolidated financial statements within our 2020 Annual Report for more information on these redundant reserve financing transactions.

Notes Payable. The Company has $375.0 million of publicly-traded, Senior Notes outstanding issued at a price of 99.843% with anannual interest rate of 4.75%, payable semi-annually in arrears on January 15 and July 15. The Senior Notes mature July 15, 2022. We were in compliance with the covenants of the Senior Notes as of June 30, 2021. No events of default occurred during the three and six months ended June 30, 2021.

Rating Agencies. There have been no changes to Primerica, Inc.'s Senior Notes ratings or Primerica Life's financial strength ratings since December 31, 2020.

Short-Term Borrowings. We had no short-term borrowings as of or during the three and six months ended June 30, 2021.

Surplus Note. Vidalia Re issued the Surplus Note in exchange for the LLC Note as a part of the Vidalia Re Redundant Reserve Financing Transaction. The Surplus Note has a principal amount equal to the LLC Note and is scheduled to mature on December 31, 2030. For more information on the Surplus Note, see Note 12 (Debt) to our unaudited condensed consolidated financial statements included elsewhere in this report.

Off-Balance Sheet Arrangements. We have no transactions, agreements or other contractual arrangements to which an entity unconsolidated with the Company is a party, under which the Company maintains any off-balance sheet obligations or guarantees as of June 30, 2021.

Credit Facility Agreement. On June 22, 2021, we amended and restated our unsecured $200.0 million revolving credit facility ("Revolving Credit Facility") with a syndicate of commercial banks. The Revolving Credit Facility has a scheduled termination date of June 22, 2026. Amounts outstanding under the Revolving Credit Facility are borrowed, at our discretion, on the basis of either a LIBOR rate loan, or a base rate loan. LIBOR rate loans bear interest at a periodic rate equal to one-, three-, six-, or 12-month LIBOR, plus an applicable margin. Base rate loans bear interest at the highest of (a) the Prime Rate, (b) the Federal Funds Rate plus 0.50% and (c) one-month LIBOR plus 1.00%, plus an applicable margin. The Revolving Credit Facility contains language providing for a benchmark replacement in the event that LIBOR is no longer available. The Revolving Credit Facility also permits the issuance of letters of credit. The applicable margins are based on our debt rating with such margins for LIBOR rate loans and letters of credit ranging from 1.00% to 1.625% per annum and for base rate loans ranging from 0.00% to 0.625% per annum. Under the Revolving Credit Facility, we incur a commitment fee that is payable quarterly in arrears and is determined by our debt rating. This commitment fee ranges from 0.10% to 0.225% per annum of the aggregate amount of the $200.0 million commitment of the lenders under the Revolving Credit Facility that remains undrawn. As of June 30, 2021, $125.0 million was drawn under the Revolving Credit Facility in anticipation of the acquisition of 80% of the operating subsidiaries of Etelequote Limited (see Note 14 (Subsequent Events)). As of June 30, 2021, we were in compliance with the covenants of the Revolving Credit Facility. Furthermore, no events of default have occurred under the Revolving Credit Facility in the three and six months ended June 30, 2021.

Contractual Obligations Update. There have been no material changes in contractual obligations from those disclosed in the 2020 Annual Report.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

Investors are cautioned that certain statements contained in this report as well as some statements in periodic press releases and some oral statements made by our officials during our presentations are "forward-looking" statements. Forward-looking statements include, without limitation, any statement that may project, indicate or imply future results, events, performance or achievements, and may contain the words "expect", "intend", "plan", "anticipate", "estimate", "believe", "will be", "will continue", "will likely result", and similar expressions, or future conditional verbs such as "may", "will", "should", "would", and "could". In addition, any statement concerning future financial performance (including future revenues, earnings or growth rates), ongoing business strategies or prospects, and possible actions taken by us or our subsidiaries are also forward-looking statements. These forward-looking statements involve external risks and uncertainties, including, but not limited to, those described under the section entitled "Risk Factors" included herein.

Forward-looking statements are based on current expectations and projections about future events and are inherently subject to a variety of risks and uncertainties, many of which are beyond the control of our management team. All forward-looking statements in this report and subsequent written and oral forward-looking statements attributable to us, or to persons acting on our behalf, are expressly qualified in their entirety by these risks and uncertainties. These risks and uncertainties include, among others:

- our failure to continue to attract new recruits, retain sales representatives or license or maintain the licensing of sales representatives would materially adversely affect our business, financial condition and results of operations;
- there are a number of laws and regulations that could apply to our distribution model, which could require us to modify our distribution structure;
- there may be adverse tax, legal or financial consequences if the independent contractor status of sales representatives is overturned;
- the Company's or the independent sales representatives' violation of, or non-compliance with, laws and regulations and related claims and proceedings could expose us to material liabilities;
- any failure to protect the confidentiality of client information could adversely affect our reputation and have a material adverse effect on our business, financial condition and results of operations;
- we may face significant losses if our actual experience differs from our expectations regarding mortality or persistency;
- our insurance business is highly regulated, and statutory and regulatory changes may materially adversely affect our business, financial condition and results of operations;
- a decline in the regulatory capital ratios of our insurance subsidiaries could result in increased scrutiny by insurance regulators and ratings agencies and have a material adverse effect on our business, financial condition and results of operations;
- a significant ratings downgrade by a ratings organization could materially adversely affect our business, financial condition and results of operations;
- the failure by any of our reinsurers or reserve financing counterparties to perform its obligations to us could have a material adverse effect on our business, financial condition and results of operations;
- our Investment and Savings Products segment is heavily dependent on mutual fund and annuity products offered by a relatively small number of companies, and, if these products fail to remain competitive with other investment options or we lose our relationship with one or more of these companies, our business, financial condition and results of operations may be materially adversely affected;
- the Company's or the securities-licensed sales representatives' violations of, or non-compliance with, laws and regulations could expose us to material liabilities;
- if heightened standards of conduct or more stringent licensing requirements, such as those adopted by the Securities and Exchange Commission and those proposed or adopted by the Department of Labor, state legislatures or regulators or Canadian securities regulators, are imposed on us or the sales representatives, or selling compensation is reduced as a result of new legislation or regulations, it could have a material adverse effect on our business, financial condition and results of operations;
- if our suitability policies and procedures, or our policies and procedures for compliance with federal or state regulations governing standards of care, were deemed inadequate, it could have a material adverse effect on our business, financial condition and results of operations;
- non-compliance with applicable regulations could lead to revocation of our subsidiary's status as a non-bank custodian;
- licensing requirements will impact the size of the mortgage loan sales force;
- our U.S. mortgage distribution business is highly regulated and subject to various federal and state laws, changes in which could affect the cost or our ability to distribute our products and could materially adversely affect our business, financial condition and results of operations;
- the effects of economic down cycles could materially adversely affect our business, financial condition and results of operations;
- major public health pandemics, epidemics or outbreaks, specifically, the novel coronavirus COVID-19 ("COVID-19") pandemic, or other catastrophic events, could materially adversely impact our business, financial condition and results of operations;
- in the event of a disaster, our business continuity plan may not be sufficient, which could have a material adverse effect on our business, financial condition and results of operations;
- if one of our, or a third-party partner's, significant information technology systems fails, if its security is compromised, or if the Internet becomes disabled or unavailable, our business, financial condition and results of operations may be materially adversely affected;
- the current legislative and regulatory climate with regard to cybersecurity may adversely affect our business, financial condition, and results of operations;

- credit deterioration in, and the effects of interest rate fluctuations and changes to benchmark reference interest rates on, our invested asset portfolio and other assets that are subject to changes in credit quality and interest rates could materially adversely affect our business, financial condition and results of operations;
- valuation of our investments and the determination of expected credit losses when the fair value of our available-for-sale invested assets is below amortized costs are both based on estimates that may prove to be incorrect;
- changes in accounting standards can be difficult to predict and could adversely impact how we record and report our financial condition and results of operations;
- the inability of our subsidiaries to pay dividends or make distributions or other payments to us in sufficient amounts would impede our ability to meet our obligations and return capital to our stockholders;
- we are subject to various federal, state and provincial laws and regulations in the United States and Canada, changes in which or violations of which may require us to alter our business practices and could materially adversely affect our business, financial condition and results of operations;
- the current legislative and regulatory climate with regard to financial services may adversely affect our business, financial condition, and results of operations;
- litigation and regulatory investigations and actions may result in financial losses and harm our reputation;
- a significant change in the competitive environment in which we operate could negatively affect our ability to maintain or increase our market share and profitability;
- the loss of key employees could negatively affect our financial results and impair our ability to implement our business strategy;
- we may be materially adversely affected by currency fluctuations in the United States dollar versus the Canadian dollar;
- any acquisition, of or investment in, businesses that we may undertake that does not close as anticipated, perform as we expect, or that is difficult for us to integrate could materially adversely impact our business, financial condition and results of operations;
- the market price of our common stock may fluctuate;
- due to our very limited history with e-TeleQuote, we cannot be certain that its business strategy will be successful or that we will successfully address the risks below or any risks not known to us that may become material;
- a failure by e-TeleQuote to comply with the requirements of the United States government'sCenters for Medicare and Medicaid Services and those of its carrier partners may harm e-TeleQuote's business which could have a material adverse effect on our business, financial condition and results of operations;
- Legislative or regulatory changes to Medicare Advantage or changes to the implementing guidance by the Centers for Medicare and Medicaid Services may harm e-TeleQuote's business which could have a material adverse effect on our business, financial condition and results of operations;
- e-TeleQuote's inability to acquire or generate leads on commercially viable terms, convert leads to sales or if customer policyholder retention is lower than assumed, any of which could adversely impact our business;
- e-TeleQuote's inability to enroll individuals during the Medicare annual election period may harm its business which could adversely impact our business, financial condition and results of operations;
- the loss of a key carrier, or the modification of commission rates or underwriting practices with a key carrier partner could harm e-TeleQuote's business which could adversely impact our business, financial condition and results of operations; and
- if e-TeleQuote's business is subject to cyber-attacks, security breaches or otherwise unable to safeguard the security and privacy of confidential data, including personal health information, its business may be harmed which could have a material adverse effect on our business, financial condition and results of operations.

Developments in any of these areas could cause actual results to differ materially from those anticipated or projected or cause a significant reduction in the market price of our common stock.

The foregoing list of risks and uncertainties may not contain all of the risks and uncertainties that could affect us. In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this report may not in fact occur. Accordingly, undue reliance should not be placed on these statements. We undertake no obligation to publicly update or revise any forward-looking statements as a result of new information, future events or otherwise, except as otherwise required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in our exposures to market risk since December 31, 2020. For details on the Company's interest rate, foreign currency exchange, and credit risks, see "Item 7A. Quantitative and Qualitative Information About Market Risks" in our 2020 Annual Report.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report (the "Evaluation Date"). Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2021 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

We are involved from time to time in legal disputes, regulatory inquiries and arbitration proceedings in the normal course of business. Additional information regarding certain legal proceedings to which we are a party is described under "Contingent Liabilities" in Note 10 (Commitments and Contingent Liabilities) to our unaudited condensed consolidated financial statements included elsewhere in this report, and such information is incorporated herein by reference. As of the date of this report, we do not believe any pending legal proceeding to which Primerica or any of its subsidiaries is a party is required to be disclosed pursuant to this item.

ITEM 1A. RISK FACTORS.

The following supplements the Risk Factors contained in our 2020 Annual Report that are incorporated herein by reference.

Risks Related to e-TeleQuote's Senior Health Insurance Distribution Business

Due to our very limited history with e-TeleQuote, we cannot be certain that its business strategy will be successful or that we will successfully address the risks below or any other risks not now known to us that may become material.

On July 1, 2021, we acquired 80% of the operating subsidiaries of Etelequote Limited, including e-TeleQuote, a senior health insurance distributor of Medicare related insurance policies. If e-TeleQuote does not perform as expected or is difficult for us to integrate, it could materially adversely affect our business, financial condition and results of operations. See "*Any acquisition of or investment in businesses that we may undertake that does not perform as we expect or that is difficult for us to integrate could materially adversely impact our business, financial condition and results of operations" in the Risk Factors section of our Annual Report on Form 10-K for the fiscal year ended December 31, 2020.*

e-TeleQuote has only been operating since 2011 and therefore has a comparatively limited operating history, which makes an evaluation of its business and prospects difficult. We cannot be certain that its business strategy will be successful or that we will successfully address these or other risks that may become material. We may in the future make significant expenditures relating to the development and growth of e-TeleQuote's business, including expenditures relating to lead acquisition, marketing, website and technology development, security, and hiring of additional employees. Further, we do not have experience in the senior healthcare space. e-TeleQuote was founded by its current chief executive officer and its success will depend on our ability to retain key management and hire additional employees with relevant expertise. Failure to successfully perform any of the activities listed above could have a material adverse effect on e-TeleQuote's business and results of operations, which could adversely affect our business.

e-TeleQuote is highly regulated and subject to compliance requirements of the United States government's Centers for Medicare and Medicaid Services and those of its carrier partners. Failure to adhere to such compliance requirements may harm its business, which could have a material adverse effect on our business, financial condition and results of operations.

e-TeleQuote's business and operating results are heavily dependent on marketing and selling Medicare plans. The marketing and sale of Medicare Advantage and Medicare Part D prescription drug plans are principally regulated by the Centers for Medicare and Medicaid Services ("CMS") and are also subject to state laws. The marketing and sale of Medicare Supplement plans are principally regulated on a state-by-state basis by state insurance departments. These laws and regulations are numerous and complex and CMS regulations and guidance frequently changes.

CMS regulations require that many aspects of e-TeleQuote's online platforms, marketing material and processes, as well as changes to these platforms, materials and processes, including call center scripts, be filed with CMS and reviewed and approved by carriers. In addition, certain aspects of Medicare plan marketing partner relationships are subject to CMS and carrier review. Changes to applicable laws, regulations and guidelines, their interpretation or the manner in which they are enforced could be incompatible with carrier relationships, the manner in which e-TeleQuote conducts business, e-TeleQuote's platforms, or the sale of Medicare plans, which could harm its business and have a material adverse effect on our business and operations.

Additionally, some carriers provide e-TeleQuote with marketing development funds, consistent with CMS regulations. If laws or regulations limit or remove the ability for carriers to compensate e-TeleQuote through these funds, the federal or state governments determine that e-TeleQuote's arrangements with carrier providers do not meet their regulatory requirements, or actions of the federal or state governments result in a reduction in the commission paid to e-TeleQuote or impact the timing of revenue recognition in

connection with the sale of Medicare related health insurance, compensation e-TeleQuote receives from carriers would decline, which would have a material adverse effect on e-TeleQuote's business and operations.

CMS scrutinizes Medicare carriers and Medicare carriers may be held responsible for actions that e-TeleQuote and its agents take. As a result, carriers may terminate their relationship with e-TeleQuote or take other corrective action if carriers or federal or state governments allege or determine that e-TeleQuote's Medicare product sales, marketing or operations are not in compliance with Medicare or other requirements, or give rise to excess complaints.

Medicare Advantage is a product legislated and regulated by the United States government. If the enabling legislation and regulation or implementing guidance issued by CMS change, e-TeleQuote's business may be harmed which could have a material adverse effect on our business, financial condition and results of operations.

e-TeleQuote's business depends upon the public and private sector of the U.S. health insurance system, which is subject to a changing regulatory environment. Accordingly, the future financial performance of its business will depend in part on e-TeleQuote's ability to adapt to regulatory developments, including changes in laws and regulations or changes to interpretations of such laws or regulations, especially laws and regulations governing Medicare.

Additionally, ongoing healthcare reform efforts and measures may expand the role or scope of government-sponsored coverage, such as single payer or so called "Medicare-for-All" proposals, and expansion of Medicare's coverage to dental, vision and hearing. Reforms, if enacted, could have far-reaching implications for the health insurance industry. Some proposals would seek to eliminate the private marketplace, whereas others would expand a government-sponsored option to a larger population, change eligibility ages, or expand coverage. We are unable to predict the impact of potential healthcare reform initiatives on e-TeleQuote's operations in light of substantial uncertainty regarding the likelihood of enactment, or the terms and timing of, any such reforms. We are also unable to predict the impact any such reforms may have on healthcare and health insurance industry participants.

Changes in laws, regulations and guidelines governing health insurance may also be incompatible with various aspects of e-TeleQuote's business and require that it make significant modifications to its existing technology or practices, which may be costly and time-consuming to implement. Various aspects of healthcare reform could also cause carriers to discontinue certain health insurance products or prohibit carriers from distributing certain health insurance products in particular jurisdictions.

e-TeleQuote consumes leads externally acquired from vendors and internally generated from its marketing. e-TeleQuote's business may be harmed if it cannot continue to acquire or generate leads on commercially viable terms, if it is unable to convert leads to sales or if policyholder retention is lower than assumed, any of which could adversely impact our business.

e-TeleQuote's business requires access to a large quantity of quality insurance sales leads to keep its agents productive and is dependent upon a number of lead suppliers, including Internet search engines, from whom it obtains leads to support its sales of insurance policies. The loss of one or more of these lead suppliers, or e-TeleQuote's failure to otherwise secure quality insurance sales leads, could significantly limit its ability to access its target market.

e-TeleQuote may not be able to compete successfully for high quality leads against its current or future competitors, some of whom have significantly greater technical, marketing and other resources. If it fails to compete successfully with its competitors to source sales leads from lead suppliers, it may experience increased marketing costs and loss of market share.

Converting quality insurance sales leads to policy sales is key to e-TeleQuote's success. Many factors impact e-TeleQuote's conversion rate, including the quality of leads, agent tenure, and its proprietary workflow technology. Any adverse impact on conversion rates could harm e-TeleQuote's business, operating results, financial condition and prospects, which could adversely impact our business.

e-TeleQuote records revenue at the time a policy is sold based on the expected lifetime value of commissions to be collected from that policy. The most important assumption used in determining the lifetime value of commissions is expected policyholder retention. If the actual time during which a policyholder retains a policy is significantly lower than expected for a large group of policies, it could significantly reduce the lifetime value of commissions collected, which could have a material adverse effect on its business and could adversely impact our business.

If e-TeleQuote's ability to enroll individuals during the Medicare annual election period is impeded, its business may be harmed which could adversely impact our business, financial condition and results of operations.

e-TeleQuote handles an increased volume of health insurance transactions in a short period of time during the Medicare annual election period, which runs from mid-October through early December. As a result, e-TeleQuote must ensure that its health insurance agents are timely licensed, trained and certified and have the appropriate authority to sell health insurance in a number of states and for a number of different health insurance carriers during this period. If e-TeleQuote's ability to market and sell Medicare-related health insurance is constrained during a Medicare election period for any reason, such as technology failures,

reduced allocation of resources, any inability to timely employ, license, train, certify and retain agents to sell health insurance, interruptions in the operation of its website or systems, or disruptions caused by other external factors, such as the COVID-19 pandemic, e-TeleQuote could sell fewer policies, which could adversely impact our business and results of operations.

e-TeleQuote's business is dependent on key carrier partners, and the loss of a key carrier partner, or the modification of commission rates or underwriting practices with a key carrier partner, could harm its business which could adversely impact our business, financial condition and results of operations.

e-TeleQuote derives a substantial portion of its revenue from a few key carrier partners. The agreements with key carrier partners to sell policies are typically terminable by carrier partners without cause upon short term advance notice. Should e-TeleQuote become dependent on fewer key carrier partner relationships (whether as a result of the termination of key carrier partner relationships, key carrier consolidation or otherwise), it may become more vulnerable to adverse changes in its relationships with key carrier partners, particularly in states where it distributes insurance from a relatively smaller number of key carrier partners or where a small number of key carrier partners dominate the market. The loss of business or the failure to retain a significant amount of business with any of our key carrier partners could adversely impact our business, financial condition and results of operations.

Commission rates from carriers are either set by each carrier or negotiated between e-TeleQuote and each carrier. Commission rates paid to e-TeleQuote are, for any given plan for a given customer, based on a number of factors, including the carriers offering those plans, the state of residence of the customer, the laws and regulations in the jurisdictions where the customer is located, and the customer's previous Medicare enrollment history (if any). Carriers have the right to alter these commission rates and their contractual relationships with e-TeleQuote on relatively short notice, including in certain instances by unilateral amendment of contracts relating to commission rates or otherwise.

e-TeleQuote's business is subject to security risks and, if it is subject to cyber-attacks, security breaches or otherwise unable to safeguard the security and privacy of confidential data, including personal health information, e-TeleQuote's business may be harmed which could have a material adverse effect on our business, financial condition and results of operations.

e-TeleQuote's services involve the collection, processing, use, transmission, and storage of confidential and personal information of consumers and current and former employees, including protected health information subject to Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and other individually identifiable health information. Accordingly, e-TeleQuote is subject to international, federal and state regulations, and in some cases contractual obligations, that require us to establish and maintain policies and procedures designed to protect HIPAA and other sensitive customer, employee, sales representative and third-party information. e-TeleQuote has implemented and maintains certain security measures intended to protect against breaches of security and other interference with its systems and networks resulting from attacks by third parties, including hackers, and from employee or representative error or malfeasance. We expect to make future significant expenditures relating to privacy and security to ensure that e-TeleQuote's information security measures meet our and industry information security standards.

Despite the measures e-TeleQuote has taken and may in the future take to address and mitigate cybersecurity and technology risks, we cannot assure that its systems and networks will not be subject to breaches or interference. Any such breaches or interference by third parties or by sales representatives or employees that may occur in the future, including the failure of any one of these systems for any reason, could cause significant interruptions to its operations, damage its or our reputation, cause the termination of relationships with government-run health insurance exchanges, carriers, and/or customers, and marketing partners, reduce demand for services and subject e-TeleQuote to significant liability and expense as well as regulatory action and lawsuits, any of which could have a material adverse effect on our business, financial condition and results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

During the quarter ended June 30, 2021, we repurchased shares of our common stock as follows:

Period	Total number of shares purchased (1)	Average price paid per share (1)	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plans or programs (2)
April 1 - 30, 2021	-	$ -	-	$ 300,000,000
May 1 - 31, 2021	5,970	157.46	-	300,000,000
June 1 - 30, 2021	-	-	-	300,000,000
Total	5,970	157.46	-	300,000,000

(1) Consists of repurchases of 5,970 shares at an average price of $157.46 arising from share-based compensation tax and option strike price withholdings.

(2) On February 9, 2021, our Board of Directors authorized a share repurchasing program, which was announced on February 10, 2021, for up to $300.0 million of our outstanding common stock for purchases through June 30, 2022.

For information regarding year-to-date share repurchases, refer to Note 7 (Stockholders' Equity) to our unaudited condensed consolidated financial statements included elsewhere in this report.

ITEM 6. EXHIBITS.

The agreements included as exhibits to this report are included to provide you with information regarding the terms of these agreements and are not intended to provide any other factual or disclosure information about the Company or its subsidiaries, our business or the other parties to these agreements. These agreements may contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties have been made solely for the benefit of the other parties to the applicable agreement and:

- should not in all instances be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate;
- have been qualified by disclosures that were made to the other party in connection with the negotiation of the application agreement, which disclosures are not necessarily reflected in the agreement;
- may apply standards of materiality in a way that is different from what may be viewed as material to our investors; and
- were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement and are subject to more recent developments.

Accordingly, these representations and warranties may not describe the actual state of affairs as of the date they were made or at any other time, and should not be relied upon by investors.

Exhibit Number	Description	Reference
2.1	Share Purchase Agreement, dated as April 18, 2021, by and among the Registrant, Primerica Newco, Inc., e-TeleQuote Limited, the Selling Shareholders, and Fortis Advisors, LLC.	Incorporated by reference to Exhibit 2.1 to Primerica's Current Report on Form 8-K filed April 19, 2021 (Commission File No.001-34680).
2.2	Amendment to Share Purchase Agreement dated as of June 30, 2021.	Incorporated by reference to Exhibit 2.2 to Primerica's Current Report on Form 8-K filed July 1, 2021 (Commission File No.001-34680)
10.1	Amended and Restated Credit Agreement dated as of June 22, 2021.	Incorporated by reference to Exhibit 10.1 to Primerica's Current Report on Form 8-K filed June 24, 2021 (Commission File No.001-34680)

(Principal Financial and Accounting Officer)

EXHIBIT 31.1

Certification of Chief Executive Officer

I, Glenn J. Williams, Chief Executive Officer of Primerica, Inc., certify that:

1. I have reviewed this quarterly report on Form 10-Q of Primerica, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant’s other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and

5. The registrant’s other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):

   a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and

   b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.

EXHIBIT 32.1

Certification of CEO and CFO Pursuant to
18 U.S.C. Section 1350,
as Adopted Pursuant to
Section 906 of the Sarbanes-Oxley Act of 2002

In connection with the quarterly report on Form 10-Q of Primerica, Inc. (the “Company”) for the period ended June 30, 2021, as filed with the Securities and Exchange Commission on the date hereof (the “Report”), I, Glenn J. Williams, as Chief Executive Officer of the Company, and I, Alison S. Rand, as Executive Vice President and Chief Financial Officer of the Company, each hereby certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

(1) To my knowledge, the Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
